

PROGRAM

Friday, May 19

7:00 am Registration and Continental Breakfast

7:50 Introduction *Drs. Karp, McCarthy*

7:55 The professional challenge of commercial technology *Dr. Bass*

EYELIDS/BROW

8:05-8:30 The no-touch blepharoplasty *Dr. Jelks*

8:30-8:50 Endoscopic browlift & midfacelift: 6 Year evolution *Dr. Saltz*

8:50-9:05 Endoscopic forehead rejuvenation: The concept of three-dimensionality and other refinements *Dr. Ramirez*

9:05-9:20 Treatment of the lower eyelid and lid cheek junction abnormalities *Dr. Sullivan*

9:20-9:30 Routine stabilization of lower eyelid position with an orbicularis hitch suture *Dr. Cohen*

9:30-9:40 An algorithm for the treatment of the herniated lower eyelid fat pad and lower periorbicularis *Dr. Ramirez*

9:40-10:00 Q & A Panel Discussion with Eyelids/Brow Faculty *Dr. Sullivan moderates*

10:00-10:25 Coffee Break

INJECTABLE FILLERS & TREATMENTS

10:25-10:40 ArteFill® *Dr. Cohen*

10:40-10:55 EVOLENCE™ *Dr. Lorenc*

10:55-11:15 Nonsurgical facial rejuvenation with hydroxylapatite fillers *Dr. Bass*

11:15-11:35 Restylane® in non-traditional areas *Dr. Kane*

11:50-12:05 Tear trough deformity and periorbital hollow: An anatomic basis for nonsurgical correction *Dr. Hirmand*

12:05-12:15 Treatment of crow's feet patterns & orbicularis hyperactivity with botulinum toxin *Dr. Kane*

12:15-12:35 Applications of botulinum toxin in the lower face *Dr. Kane*

12:35-12:55 Q & A Panel Discussion with Injectable Fillers Faculty *Dr. Bass moderates*

12:55-1:55 Lunch in the Exhibit Area

FACIAL

1:55-2:15 Lower face, neck rejuvenation and contouring including surgery of the subplatysma fat and submandibular gland *Dr. Sullivan*

2:15-2:35 Deep subplatysma cervicoplasty *Dr. Ramirez*

2:35-2:55 Barbed suture techniques for facial rejuvenation *Dr. Ruff*

2:55-3:10 Suspension devices: Animal studies *Dr. Lorenc*

3:10-3:25 Facial rejuvenation with the subperiosteal "Contour Thread" suspension *Dr. Ramirez*

3:25-3:40 Coffee Break

3:40-4:20 Decision-making in facialplasty *Dr. Aston*

4:20-4:35 Alloderm® in secondary rhinoplasty *Dr. Gryskiewicz*

4:35-4:55 Q & A Panel Discussion with Facial Faculty *Drs. Sullivan/Bass moderate*

4:55-5:15 Hot topics review *Dr. Gryskiewicz*

5:15-5:25 pm 10 years of emerging technologies *Drs. Bass/Karp*

Saturday, May 20

7:30-8:00 am Continental Breakfast

LASER SKIN CARE - Rhytids, Cellulite, Skin Tightening

8:00-8:10 The future of energy-based treatments *Dr. Bass*

8:10-8:25 Fractional photothermolysis: Laser resurfacing in the 21st century update *Dr. Bass*

8:25-8:40 Fraxel™ *Dr. Cohen*

8:40-9:00 Variable pulse ER: YAG resurfacing - The light side *Dr. Pozner*

9:00-9:10 The deep ER: YAG peel *Dr. Bass*

9:10-9:20 Cellulite technologies: Current capabilities *Dr. Bass*

9:20-9:30 Nonsurgical skin tightening including Thermage and Titan *Dr. Pozner*

9:30-9:45 Care of ethnic skin *Dr. Graf*

9:45-10:05 Update on cosmeceuticals *Dr. Graf*

10:05-10:20 Q & A Panel Discussion with Laser Skin Care Faculty *Dr. Bass moderates*

10:20-10:50 Coffee Break

BREAST

10:50-11:00 3D imaging in breast reduction surgery *Dr. Karp*

11:00-11:10 3D imaging in breast reconstruction surgery *Dr. Choi*

11:10-11:20 Breast conservation surgery through breast reduction incisions *Drs. Choi/Karp*

11:20-11:40 Spiral flap reshaping of the breast after massive weight loss *Dr. Hurwitz*

11:40-12:00 Update on FDA status of silicone breast implants *Dr. Young*

12:20-12:40 Breast implant sizing - lessons learned *Dr. Adams*

12:40-1:00 Optimizing results with form stable cohesive gel implants *Dr. Adams*

1:00-1:15 Q & A Panel Discussion with Breast Faculty *Dr. Karp moderates*

1:15-2:00 Lunch in the Exhibit Area

BODY CONTOURING

2:00-2:20 How to mark the post-bariatric surgery patient *Dr. Capella*

2:20-2:35 The Surround aspirating system ultrasonic-assisted lipoplasty for difficult body contouring *Dr. Hurwitz*

2:35-2:55 Improving aesthetics of the upper body and axilla after massive weight loss *Dr. Hurwitz*

2:55-3:10 Management and results for the post-bariatric patient *Dr. Capella*

3:10-3:30 Indications and techniques for gluteal augmentation *Dr. Mendieta*

3:30-3:50 Safety in body contouring surgery (*NB: safety lecture for ASPS standards) *Dr. Saltz*

3:50-4:05 Coffee Break

4:05-4:20 Large volume liposuction (*NB: safety lecture) *Dr. Young*

4:20-4:35 Nonsurgical body contouring using UltraShape® *Dr. Glicksman*

4:35-4:50 Q & A Panel Discussion *Dr. Karp moderates*

4:50-6:10

LABORATORY DEMONSTRATION

Live patient demonstrations of the techniques for:

- Arctic laser peel
- Botulinum toxin injection (Botox™)
- Fraxel™ laser treatment
- Hyaluronate filler
- Hydroxylapatite filler injection
- Intense pulsed light treatment

6:10 pm Course Evaluation & Adjourn
