| 8:00 am-3:00 pm | Montefiore Institute for Minimally Invasive Surgery  
**Rhinology Cadaver Dissection Lab with Course Faculty** |

The cadaveric dissection laboratory will provide participants with live video demonstrations of advanced endoscopic surgical techniques. Participants will then have the opportunity to perform endoscopic sinus surgery using 3 different state-of-the-art image guidance systems as well as the latest surgical instruments and powered dissectors. Laboratory faculty will be available at each station for hands-on teaching. Following the endoscopic session, there will be live demonstrations of open and closed functional septorhinoplasty maxillectomy techniques, as well as another opportunity for participants to perform these surgeries with instruction from the course faculty.
