

Sponsored by the NYU Post-Graduate Medical School

Surgical, Pharmacological and Technological Advances in Adult and Pediatric Urology State-of-the-Art

Thursday – Saturday, December 10-12, 2009
New York City

COURSE DESCRIPTION

The diagnosis and management of many urologic diseases have been greatly influenced by recent pharmacological, surgical and technological advances. One of the greatest challenges of the practicing urologist is to stay abreast with the many dynamic changes in this field. An internationally acclaimed faculty has been assembled to provide this update. During the plenary sessions, the registrants will have the opportunity to participate in question and answer sessions. In addition, an emphasis on case presentations with faculty participation will enhance the practical value of the course.

TARGET AUDIENCE

This course is designed specifically for the practicing community and academic urologist seeking a state-of-the-art update on important clinical topics in urology. Primary care physicians, nurses, nurse practitioners, physician assistants and residents will also benefit from the course information.

STATEMENT OF NEED

There is a need to provide state-of-the-art information regarding the following disciplines in urology:

Female Urology: Female urologic conditions comprise a significant component of general urologic practice and practicing urologists need to be familiar with surgical treatment options for stress urinary incontinence and pelvic organ prolapse.

Robotic Surgery: Urologists need to be updated on the latest advances in robotic urologic surgery. Robotic surgery has been shown to offer some advantages over conventional minimally invasive surgery in several urological procedures.

Pediatric Urology: Vesicoureteral reflux guidelines are available and need to be disseminated to the practicing clinician who practices pediatric urology.

Renal Cancer: The practicing urologists needs to be aware of radiologic techniques to correctly identify renal masses in order to properly diagnose and treat renal cancer.

Male Infertility: Urologists need to be up to date

on the clinical guidelines with male factor infertility for proper work-up in order to diagnose male factor infertility. The practitioner needs to be aware of how to identify causes of obstructive azoospermia in order to treat.

Hypogonadism: Understanding hypogonadism: the definition, epidemiology and differential diagnosis as well as testosterone replacement and prostate cancer is important for the practicing clinician, as the prevalence of hypogonadism in men aged ≥ 45 years in the United States is about 40%. Hypogonadism has significant medical consequences that are under diagnosed.

BPH: Urologists should be updated on minimally invasive ablation of the prostate for BPH, as well as new data on medication options, and strategies for identifying it in patients.

EDUCATIONAL OBJECTIVES

- Evaluate the surgical treatment options for commonly treated female urological conditions such as pelvic floor prolapse and stress urinary incontinence
 - Review the latest robotic surgical techniques for radical prostatectomy, partial nephrectomy, upper urinary tract reconstruction, and radical cystectomy
 - Summarize the AUA guidelines for management and screening of primary vesicoureteral reflux in children and strategies to incorporate them into practice
 - Establish the optimal radiologic techniques for imaging the renal mass to improve diagnosis in practice
 - Incorporate the latest clinical guidelines in order for the infertile patient to receive the most up-to-date work-up including physical examination, semen analysis and hormonal evaluation
 - Identify causes of obstructive azoospermia, such as ejaculatory duct obstruction and congenital bilateral absence of the vas deferens
 - Define hypogonadism and incorporate a screening strategy to diagnosis it in patients who would otherwise go undiagnosed
 - Effectively incorporate strategies for identifying BPH in patients, as well as selecting treatment
- 

Course Director**Herbert Lopor, MD**

Professor and Martin Spatz
Chairman of Urology
New York University
School of Medicine
New York, NY

Guest Faculty**Gopal Badlani, MD**

Professor
Department of Urology
Wake Forest University Medical Center
Winston-Salem, NC

Linda M. Dainiki Shortliffe, MD

Stanley McCormick Memorial Professor
Chair, Department of Urology
Stanford University School of Medicine
Stanford, CA

Michael Ferragamo, MD

Assistant Clinical Professor
of Urology at the State University
of New York, University Hospital
and School of Medicine
at Stony Brook
Long Island, NY

Khurshid A. Guru, MD

Clinical Assistant Professor
Department of Urology
University at Buffalo
State University of New York
Buffalo, NY

Elizabeth Hecht, MD

Assistant Professor
Department of Radiology
University of Pennsylvania
Philadelphia, PA

Dolores J. Lamb, PhD

Professor of Urology
and Molecular and Cellular Biology
Vice Chair for Research
Scott Department of Urology
Baylor College of Medicine
Houston, Texas

John Libertino, MD

Professor of Urology
Tufts Medical School
Chairman, Institute of Urology
Lahey Clinic
Burlington, MA

Larry Lipshultz, MD

Professor of Urology
Director, Division of Male Reproduction
Baylor College of Medicine
Houston, TX

Abraham Morgentaler, MD, FACS

Associate Clinical Professor of Urology
Harvard Medical School
Director, Men's Health Boston
Brookline, MA

Vipul Patel, MD

Medical Director
Global Robotics Institute
Florida Celebration Health
Celebration, FL

Craig A. Peters, MD, FACS, FAAP

John E. Cole Professor of Urology
Division of Pediatric Urology
University of Virginia
Charlottesville, VA

Alex E. Te, MD

Associate Professor

Victor Nitti, MD

Professor and Vice Chairman
Director, Voiding Dysfunction
and Female Urology

Nirit Rosenblum, MD

Assistant Professor
Female Urology and
Reconstructive Surgery

Ellen Shapiro, MD

Professor
Director, Pediatric Urology

Michael Stifelman, MD

Assistant Professor
Director, Robotic Surgery

Samir Taneja, MD

The James M. Neissa and Janet Rha Neissa
Associate Professor
Director, Urologic Oncology

Shpetim Telegrafi, MD

Assistant Professor of Urology
Director, Diagnostic Ultrasound

PROGRAM SCHEDULE

DECEMBER 10 - 12, 2009

Thursday, December 10

7:00 am Registration and Continental Breakfast

FEMALE UROLOGY

Moderator: Victor Nitti, MD

Vaginal Surgery for the Urologist

8:00 am

TOPICS

- Mid Urethral Slings
- Pelvic Organ Prolapse Repair
- Urethral Diverticulectomy
- Vesicovaginal and Urethrovaginal Fistula Repair
- Urethral Stricture Repair
- Urethrolysis and Sling Takedown
- Complications of Prolapse and Incontinence Treatment

10:00 Coffee Break

FACULTY

- Victor Nitti, MD
- Nirit Rosenblum, MD
- Gopal Badlani, MD

PEDIATRIC UROLOGY

Moderator: Ellen Shapiro, MD

10:20 Vesicoureteral Reflux 2009:
Shifting Sands
Craig A. Peters, MD, FACS, FAAP

11:05 UTI and the Problems
of Eating Chicken Soup
Linda M. Dairiki Shortliffe, MD

11:25 Urologic Imaging – Risks and Benefits
Linda M. Dairiki Shortliffe, MD

11:45 Case Presentations
Ellen Shapiro, MD

12:15 pm Lunch Break

2:00 Peng Memorial Lecture

Renovascular Surgery: Past and Present
John Libertino, MD

RENAL CANCER

Moderator: Samir Taneja, MD

Treatment Related Decision Making

2:40 What's New In Renal Imaging/Diagnostics
Elizabeth Hecht, MD

3:00 Approaching The Small Renal Mass:
Is Surveillance Safe?
Samir Taneja, MD

3:20 The Influence of Renal Function
in Renal Surgery
William Huang, MD

3:40 Coffee Break

Surgical Tricks of the Trade

3:50 Advances In Partial Nephrectomy
John Libertino, MD

4:10 Laparoscopic Partial Nephrectomy:
Making It Simple
Samir Taneja, MD

4:30 Managing IVC Tumor Extension
John Libertino, MD

4:50 Case Studies/Panel Discussion

5:20 Adjourn

Friday, December 11

7:30 am Continental Breakfast

INFERTILITY

Moderator: Joseph Alukal, MD

8:00 Evaluation of The Infertile Male
Larry Lipshultz, MD

8:20 The Use of Office Ultrasound In
the Workup of the Infertile Male
Shpetim Telegrafi, MD

8:40 Obstructive Azoospermia
Larry Lipshultz, MD

9:00 Advanced Tests of Sperm Function
Dolores J. Lamb, PhD

- 9:15 The Genetic Evaluation of the Male Patient with Non-Obstructive Azoospermia
Dolores J. Lamb, PhD
- 9:30 Advances In Assisted Reproductive Techniques
Frederick Licciardi, MD
- 9:45 Why Evaluate The Infertile Male?
Joseph Alukal, MD
- 10:00 Coffee Break

BPH

Moderator: Herbert Lepor, MD

- 10:20 Surgical Management of BPH: What is the Optimal Management?
Alex E. Te, MD
- 10:40 Minimally Invasive Ablation of the Prostate for BPH: Update
Bob Djavan, MD, PhD
- 11:00 Medical Treatment of BPH: Update
Herbert Lepor, MD
- 11:30 Case Presentations
- 12:00 pm Lunch Break

ROBOTICS

Moderator: Michael Stifelman, MD

- 2:00 Robotic Prostatectomy: Techniques to Maximize The Trifecta
Vipul Patel, MD
- 2:20 Robotic Prostatectomy: Lessons Learned in Managing Complications and Difficult Anatomy
Vipul Patel, MD
- 2:40 Robotic Radical Cystectomy: How and Why?
Khurshid A. Guru, MD
- 3:20 Coffee Break
- 3:40 Robotic Partial Nephrectomy: Managing Complex Lesions and Improving Outcomes
Michael Stifelman, MD
- 4:00 Robotic Upper Urinary Tract Reconstruction: The Perfect Tool
Michael Stifelman, MD

CODING SEMINAR

- 4:30 Urology Coding - An Essential Part of Every Urological Practice
Michael Ferragamo, MD
- 5:15 pm Adjourn

Saturday, December 12

7:30-8:45 am CME Breakfast Symposium
(supported by VVUS)

"Early" Penile Rehabilitation Following Prostatectomy;
The Importance of Oxygenation
Andrew McCullough, MD

HYPOGONADISM

Moderator: Andrew McCullough, MD

- 9:00 Hypogonadism: Definition, Epidemiology and Making the Diagnosis
Abraham Morgentaler, MD, FACS
- 9:20 Testosterone Replacement: Pills, Shots, Gels or Pellets
Andrew McCullough, MD
- 9:40 Anabolic Steroid Use and Male Reproduction
Larry Lipshultz, MD
- 10:00 Testosterone Replacement and Bone Density. When To Get A Bone Scan and How To Interpret It
Abraham Morgentaler, MD, FACS
- 10:20 Testosterone Replacement and Prostate Cancer
Larry Lipshultz, MD
- 10:40 Case Presentations/Discussion Panel
- 11:00 am Adjourn

GENERAL INFORMATION

LOCATION

NYU School of Medicine
Alumni Hall, Farkas Auditorium
550 First Avenue (31st St.)
New York, NY 10016

NYU School of Medicine is located in a predominately residential area on the East side of Manhattan.

PHOTO IDENTIFICATION IS REQUIRED TO ENTER THE MEDICAL CENTER.

ONLINE REGISTRATION PREFERRED

Applications will be accepted in order of their receipt. Visit our secure website www.med.nyu.edu/courses/cme/urology2009 to submit online registration.

REGISTRATION OFFICE

NYU Post-Graduate Medical School
P. O. Box 1855, Murray Hill Station
New York, NY 10016
Phone: 212-263-5295
Fax: 212-263-5293
Please Note: We cannot accept telephone registration.

ACCREDITATION STATEMENT

The NYU Post-Graduate Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

COURSE CONFIRMATION

Please supply your e-mail address to receive a confirmation letter. Written confirmation *will not* be mailed.

If there is a specific topic or question relating to this course that would help fulfill your educational needs, please submit it on the registration panel.

CREDIT DESIGNATION STATEMENT

The NYU Post-Graduate Medical School designates this educational activity for a maximum of 17.25 *AMA PRA Category 1 Credits™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

(12/10: 7.25 credits; 12/11: 6.75 credits; 12/12: 3.25 credits)

To confirm attendance, you must have your ID badge scanned daily. CME Certificates can be obtained by logging onto our website, <http://cme.med.nyu.edu>, with your Student ID Number, which can be found on your ID badge and receipt. Detailed instructions on how to obtain your CME credits online and receive your instantaneous letter of credit will be provided at the conference.

DISCLOSURE STATEMENT

The NYU Post-Graduate Medical School adheres to the ACCME Essential Areas and policies, including the Standards for Commercial Support, regarding industry support of continuing medical education. In order to resolve any identified Conflicts of Interest, disclosure information is provided during the planning process to ensure resolution of any identified conflicts. Disclosure of faculty and commercial relationships as well as the discussion of unlabeled or unapproved use of any drug, device or procedure by the faculty is listed at the symposium.

HOTEL ACCOMMODATIONS

Rooms are in very heavy demand in New York City; we urge you to make your reservations early. You may obtain a list of hotels located near NYU School of Medicine by visiting our website.

PARKING

Parking is available on 29th and 30th Streets between First and Second Avenues, as well as at the Schwartz Health Care Center garage on First Avenue and 30th Street.

COURSE REGISTRATION FORM
