TARGET AUDIENCE
Senior Physical Medicine and Rehabilitation resident physicians preparing for Part I (written) of the Board Certification Examination; PM&R physicians in their first year of practice preparing for Part II (Oral) of the Board Certification Examination; practicing PM&R physicians seeking continuing medical education and knowledge update.

COURSE DESCRIPTION
This intensive six-day and three-evening review course is designed to examine current practice with emphasis on recent advances in the field of Physical Medicine and Rehabilitation. Ample time is provided for questions throughout the course. One-on-one registrant/faculty practice oral examinations will be available for registrants on Tuesday or Thursday evening. Written questions workshop on Wednesday evening. This year will also include a hands-on workshop on Spasticity Management and a lecture on Regulatory Challenges in PM&R and Health Care in addition to the Special One-Day Electrodiagnosis Program on Saturday.

STATEMENT OF NEED
The goal of this course is to deliver a comprehensive review and update of the field of Physical Medicine and Rehabilitation for both candidates taking Parts 1 and 2 of the required Board exams as well as practitioners. This year’s program focuses on topics such as interventional pain that are now being discussed within the literature, highly technical skills that
