Faculty

Course Director
Deborah R. Shatzkes, M.D.
Assistant Professor of Radiology

Guest Faculty
Chuck Lanzieri, M.D., FACR
Professor of Radiology
Director of Neuroradiology
Case Western Reserve University
Cleveland, OH

NYU Faculty
Meng Law, M.D.
Assistant Professor of Radiology
Annette O. Nusbaum, M.D.
Assistant Professor of Radiology
Bidyut Pramanik, M.D.
Assistant Professor of Radiology
Deborah R. Shatzkes, M.D.
Assistant Professor of Radiology

Target Audience
This course will be of value to the radiologist in clinical practice, as well as to trainees interested in solidifying their knowledge of central nervous system and head & neck imaging. Those practitioners who are particularly interested in improving their skills in interpreting and reporting head & neck studies will find this course particularly beneficial.

Overview
This course has been developed as an opportunity for the practicing radiologist to review the fundamentals of neuroradiology, with particular emphasis on head & neck imaging. Head & neck has traditionally inspired considerable angst in many practitioners, even those with advanced training in neuroimaging. During these sessions, we will emphasize a practical, organized approach to interpreting head & neck exams, which will ultimately improve the quality of the radiology report. A similar pragmatic approach will be applied to traditional brain and spine studies, as well as to advanced techniques, including diffusion/perfusion MRI, MR spectroscopy, MRA and CTA. The way these techniques are incorporated into our daily practice will be reviewed.

Objectives
This course is designed to:
1. Review the fundamentals of neuroimaging of the brain & spine.
2. Discuss advanced imaging techniques, including MR diffusion, perfusion, MRS, MRA and CTA, and their application to modern practice.
3. Review the fundamentals of commonly encountered diseases of the head & neck and their radiographic appearance.
4. Provide a coherent and organized approach to the interpretation of head & neck imaging studies.
5. Improve the quality of the radiology report generated for these studies.

Note: If you are interested in learning even more head & neck, please consider the one-day workshop entitled “Interpreting Head & Neck Scans: Taking Your Reports to the Next Level” being offered on St. John immediately following this workshop. Please see details later in this brochure.

Accreditation
The NYU Post-Graduate Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians.

The NYU Post-Graduate Medical School designates that these continuing medical education activities meet the criteria for credit hours in Category I of the Physician’s Recognition Award of the American Medical Association.

Entire 4-Day Neuroradiology/Head & Neck Conference: 17 hours in Category I

Disclosure Statement
The NYU Post-Graduate Medical School adheres to ACCME standards regarding industry support of continuing medical education. Disclosure of any commercial relationships as well as discussion of off-label or investigational use of any drug, device or procedure by the faculty, will be made known at the symposium.
