Diagnostic Imaging Update at the Atlantis
Nassau, Bahamas
April 10–14, 2006

Participating Faculty

Course Director
Bernard A. Birnbaum, M.D.

NYU Faculty
Bernard A. Birnbaum, M.D.
Professor of Radiology
Vice Chair, Clinical Affairs and Operations

Jill E. Jacobs, M.D.
Associate Professor of Radiology
Chief, Cardiac Imaging

Karen A. Mourtzikos, M.D.
Assistant Professor of Radiology
Johnny Vlahos, M.D.
Assistant Professor of Radiology

Guest Faculty
Diego R. Martin, M.D., Ph.D.
Professor of Radiology
Director of MRI
Emory University Hospital
Atlanta, Georgia

Mitchell E. Tublin, M.D.
Associate Professor of Radiology
Chief, Ultrasound
University of Pittsburgh Medical Center
Pittsburgh, Pennsylvania

The Post-Graduate Medical School of the New York University School of Medicine is committed to improving patient care through continuing medical education.

Statement of Need
There are many recent technological advances in imaging techniques which can be applied in current clinical practice. Maintenance of certification requires continued review of essential imaging techniques in all areas of radiology, including the chest, abdomen and pelvis.

Target Audience
Clinical Radiologists in academics or private practice.

Description
This five-day seminar is designed for the radiologist in clinical practice. It will focus on a review of relevant disease processes affecting the body (primarily the chest, abdomen, and pelvis) as well as recent advances in Multidetector CT, MRI, US and PET/CT Imaging. Course participants will have ample opportunity to interact directly with the faculty in question-and-answer sessions and will be encouraged to discuss specific issues that they consider interesting or controversial.

Educational Objectives
1. Based on new advances in imaging techniques in MDCT, MR and Ultrasound, you will optimize detection and characterization of common diseases encountered when examining the abdomen and pelvis.
2. When using new PET/CT protocols and procedures in scanning patients, you will more efficiently recognize inflammation, infection and neoplasms.
3. When patients present with acute cardio-pulmonary distress, you will employ the latest CT imaging techniques & procedures to evaluate this region.
4. When patients present with acute abdominal pain, you will be able to more effectively diagnose a broad spectrum of pathologic entities based on state-of-the-art MR, CT and US advances.
5. Based on new cardiac imaging strategies, including MDCT angiography, you will be able to make a more thorough evaluation of the coronary arteries when examining cardiac patients.

Accreditation Statement
The NYU Post-Graduate Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation Statement
The NYU Post-Graduate Medical School designates this educational activity for a maximum of 21.5 category 1 credits toward the AMA Physician’s Recognition Award. Each physician should claim only those credits that he/she spent in the activity.

Disclosure Statement
The NYU Post-Graduate Medical School adheres to ACCME Essential Areas and policies, including the Standards for Commercial Support regarding industry support of continuing medical education. In order to resolve any identified Conflicts of Interest, disclosure information is provided during the planning process to ensure resolution of any identified conflicts. Disclosure of faculty and commercial relationships as well as the discussion of off-label or investigational use of any drug, device or procedure by the faculty is listed at the symposium.

Registration Information
The tuition for this five-day course is $875; $595 for residents/fellows/retirees, NYU alumni, V.A. employees, Canadians and physicians who do not permanently reside in the U.S. On-line registration is the fastest and easiest way to enroll. Fees include course materials, breakfast and breaks for registrants, a welcome reception for the entire family. Please be sure to provide your email address for a confirmation/receipt when registering.

Cancellations
If you need to cancel your enrollment, you will need to provide written notification and if this is made 30 or more days in advance, a $75 service charge will apply. For last-minute cancellations less than 30 days in advance, a $150 service charge will apply.

Special Needs
The Post-Graduate Medical School of the New York University School of Medicine, in compliance with the legal requirements of the Americans with Disabilities Act, requests any participant of this CME course who is in need of accommodation to submit written requests to our office at least one month prior to the course date.

Dietary Restrictions
Please indicate any dietary restrictions on the registration form or when you register on-line.
