The Department of Radiology Presents:
31st Annual Morton A. Bosniak
Head to Toe Imaging Conference
at the Hilton New York
December 17–21, 2012

Monday, Dec. 17
Abdominal Imaging & Patient Safety in Imaging

Tuesday, Dec. 18
Thoracic Imaging & Cardiac Imaging

Wednesday, Dec. 19
Neuroradiology & Pediatric Imaging

Thursday, Dec. 20
Musculoskeletal Imaging & Interventional Radiology

Friday, Dec. 21
Breast Imaging & PET/CT Imaging
Participating Faculty

The Post-Graduate Medical School of the New York University School of Medicine is committed to improving patient care through continuing medical education.

Program Director
Georgeann McGuinness, M.D., F.A.C.R.

Associate Program Directors
Hearns W. Charles, M.D. (Interventional Radiology)
Nancy R. Fefferman, M.D. (Pediatric Imaging)
Nicole Hindman, M.D. (Abdominal Imaging)
Jill E. Jacobs, M.D., F.A.C.R. (Cardiac Imaging)
Danny C. Kim, M.D. (Patient Safety in Imaging)
Yvonne W. Lui, M.D. (Neuroradiology)
Georgeann McGuinness, M.D., F.A.C.R. (Thoracic Imaging)
Cecilia L. Mercado, M.D. (Breast Imaging)
Sandra L. Moore, M.D. (Musculoskeletal Imaging)
Karen A. Mourtzikos, M.D. (PET/CT Imaging)

Guest Faculty
Denise R. Aberle, M.D.
Professor of Radiology
Vice Chair of Research, Radiological Sciences
Section of Thoracic Imaging
UCLA David Geffen School of Medicine
Los Angeles, CA

Christine B. Chung, M.D.
Professor-In-Residence of Radiology
Director of the UCSD Musculoskeletal Imaging Research Group

Educational Objectives

• Evaluate and incorporate updated imaging techniques and protocols for sub specialty imaging (Abdominal, Musculoskeletal, Neurologic, Thoracic, Cardiac, Breast, PET/CT, Emergency Medicine, Interventional) into clinical imaging practice in order to enable accurate diagnosis, dictate best therapy options, and assess response to therapy, prompting therapy modification as needed.

• Describe the current safety issues in all areas of radiology surrounding radiation exposure, contrast reactions and MRI safety.

• Develop protocols on how to incorporate the new MRI sequences and techniques for avoiding image related artifacts into practice in order to improve diagnosis.

• Discuss how to optimize and incorporate a gamut of studies, including CT and PET, in order to accurately stage neoplasms with minimal cost and radiation exposure.

• Discuss the latest techniques in breast imaging, including tomosynthesis of the breast and the use of breast ultrasound as a screening tool.

• Develop strategies on how to include the updated staging system for lung cancer into practice in order to provide the oncology care team with accurate information for patient classification, which will then determine the optimal treatment regimen.

• Using the National Lung Screening Trial (NLST) report as a model, analyze the factors that go into the assessment and applications of screening techniques in the asymptomatic population.

Course Format

The course runs for 5 days, with a combination of didactic lectures and interactive workshops on most days.

Pre-registration for workshops is not required. Attendance of the entire course will provide a comprehensive imaging review, including advanced and cutting edge techniques. Registrants may choose to enroll in any combination of individual course days, thereby creating a unique course content tailored to an individual’s distinct interests.

Day 1: Abdominal Imaging & Patient Safety in Imaging
Day 2: Thoracic Imaging & Cardiac Imaging
Day 3: Neuroradiology & Pediatric Imaging
Day 4: Musculoskeletal Imaging & Interventional Radiology
Day 5: Breast Imaging & PET/CT Imaging

Target Audience

The program is designed for clinical radiologists in either general or specialized practice, and is appropriate for radiologists in training. Familiarity with the fundamentals of CT, MR, PET, and US technology and applications, as well as basic anatomy, is assumed.

Statement of Need/
Course Description

The 31st Annual “Morton A. Bosniak Head to Toe Imaging Conference” offers an intensive 5 day program reviewing Neurologic, Musculoskeletal, Pediatric, Abdominal, Thoracic, Cardiac, Breast, Emergency, PET/CT and Interventional Radiology. There will be a continued focus on safety and quality issues, including radiation exposure and contrast reactions, crossing all sub specialty areas. Due to tremendous growth in the science of imaging and practice of radiology, it is imperative for radiologists to continually update their skills and gain exposure to advances in the field. Maintenance of certification requires continued review and adoption of essential and cutting edge imaging techniques in all modalities, covering the entire body. We offer daily free Self Assessment Modules (SAMs) in key areas with recent clinical advances. In addition, comparative effectiveness research, as it applies to imaging, will be incorporated throughout the course, allowing immediate application to clinical practice, with an eye towards quality, safety, and the trend towards accountable care organizations.

An innovative feature of this course is that individual sections of the program can be attended on a daily basis, allowing course content to be tailored to the unique interests and requirements of each registrant.

The purpose of this course is to provide the registrant with an overview of state-of-the-art imaging methods as they pertain to clinical practice, and to introduce advances in the field in terms of imaging technology and disease diagnosis and management.

The course is designed to examine the practical aspects of established CT, MR, US, PET and Interventional techniques, as well as to introduce new techniques and applications for these modalities. Plenary sessions and workshops have been structured to review pathologic processes and image interpretation, and to update the registrant on advanced applications and image analysis.
General Information

Conference Location
Hilton New York
1335 Avenue of the Americas (53rd Street)
New York City

Hilton New York
The Hilton New York is a sophisticated hotel conveniently located in the midst of business and media centers in New York City, at West 53rd Street and Avenue of the Americas (Sixth Avenue). Hilton New York hotel guestrooms are spacious and stylish with a comfortable work area, high-speed internet access (wired and wireless), multiple-line phones, voicemail and data port, alarm clock radio with MP3 connection and complimentary newspaper Monday through Friday. All guest rooms feature marble baths, in-room thermostat control, 27 inch television, on-demand entertainment including video games, refreshment center, and coffeemaker.

The hotel offers a Fitness Club and Spa on the fifth floor. We think you’ll enjoy the location of the Hilton for the Broadway theatre district, 5th Avenue shopping and major museums.

NYU Room Block and Rates
Our room block begins Saturday, December 15th and concludes on Sunday, December 23rd. Please reserve your room early (as our block could sell out quickly) but the official cut-off date is November 16, 2012.

Telephone for Reservations: 1-800-HILTONS
Telephone in New York: 212-586-7000
Group Name: NYU Head to Toe Imaging Conference
Group Rate: $303 (single or double) plus taxes
Room rates include wireless internet.

Online Hotel Reservations
You may register online by visiting:
http://www.med.nyu.edu/courses/cme/h2t12

Meeting Registration
Registration fees are found on the Registration Form at the back of this brochure. You may sign up for the entire 5 days or you may register on a daily basis (but half-day rates are not possible). The easiest way to register is online by going to www.radcm.med.nyu.edu. Please be sure to provide your email address to receive a confirmation/receipt. If you need to submit a check, please mail the registration form and check to our offices.

Accreditation Statement
The NYU Post-Graduate Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation Statement
The NYU Post-Graduate Medical School designates this live activity for a maximum of 40.25 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Daily Credits
MONDAY (Abdominal Imaging & Patient Safety in Imaging):
8.25 Category 1 Credits
TUESDAY (Thoracic Imaging & Cardiac Imaging):
8.00 Category 1 Credits
WEDNESDAY (Neuroradiology & Pediatric Imaging):
8.00 Category 1 Credits
THURSDAY (Musculoskeletal Imaging & Interventional Radiology):
8.00 Category 1 Credits
FRIDAY (Breast Imaging & PET/CT Imaging):
8.00 Category 1 Credits

Mammography Credits
Lectures and workshops on 12/21 fulfill a total of 4.25 breast imaging credits applicable to the MQSA accreditation requirements. The breakdown of credits for the lectures only are as follows:

- Digital Mammography: 2.25 hrs
- Breast MRI: 1.00 hrs
- Breast US: 1.00 hrs

Disclosure Statement
The NYU Post-Graduate School adheres to ACCME Essential Areas and Policies, including the Standards for Commercial Support regarding industry support of continuing medical education. In order to resolve any identified conflicts of interest, disclosure information is provided during the planning process to ensure resolution of any identified conflicts. Disclosure of faculty and commercial relationships as well as the discussion of off-label or investigational use of any drug, device or procedure by the faculty or procedure by the faculty will be fully noted at the meeting.

Self-Assessment Module (SAM)
Self Assessment Modules (SAMs), allowing registrants to obtain ABR SAM credit, will be offered daily at no additional charge.

AHRA CE Credits
Category A CE Credits are pending approval by the AHRA.

Special Needs
The Post-Graduate Medical School of the New York University School of Medicine, in compliance with the legal requirements of the Americans with Disabilities Act, requests any participant of this CME course who is in need of accommodation to submit written requests to our office at least one month prior to the course date.

Dietary Restrictions
Please indicate any dietary restrictions on the registration form or online form.

Special Topics/Questions
If there is a specific topic or question that would help fulfill your educational needs, please submit it on the registration form or online form.
