

The Department of Radiology Presents:

11th Annual NYU Radiology Alpine Imaging Symposium *in Snowmass*

Sponsored by the NYU Post-Graduate Medical School

General Information

Target Audience

This course is designed for practicing clinical radiologists in academics or private practice. Non-radiologist clinicians who treat gastrointestinal, pulmonary or breast diseases may also benefit from being updated on the latest imaging developments.

Course Description/Statement of Need

Radiologists must be aware of the changes and developments in all areas of radiology (MR, CT, US, X-ray) including Musculoskeletal, Thoracic, Breast, Neuroradiology and Abdominal Imaging in order to maintain certification and optimize patient care. It is imperative that radiologists stay up-to-date on the latest imaging protocols and be aware of technological advances and how to incorporate them into their everyday practice.

Several important topics to be covered include: radiation dose in CT, imaging brain tumors, breast ultrasound and MR, MSK imaging of the elbow/foot and clinical management of small lung nodules. The essentials presented in this program are meant to be integrated into the participants' practices in an effort to improve their current knowledge, imaging skills and ultimately improve patient care.

Learning Objectives

- Update applications for non-invasive imaging techniques to evaluate interstitial lung diseases, including drug reactions or complications of systemic diseases.
- Assess the benefits of utilizing advanced techniques such as MR perfusion imaging in order to interpret brain tumor studies more effectively.
- Describe the most up to date BIRADS lexicon for breast MRI with the goal of improving communication with the referring physician and facilitating data collection.
- Describe the anatomy of the foot, including the multiple ligaments, joints and tendons.

Hotel Information

The Westin Snowmass Resort

Opening December 2013, the brand new Westin Snowmass offers true ski-in/ski-out access to Snowmass Mountain and is located in the center of Snowmass Village—offering a wide variety of dining and shopping options.

The Westin Snowmass features fully renovated guest rooms, along with a luxurious renovated lobby, lounge and public spaces, two new restaurants, a new Heavenly Spa, slope-side pool, hot tub & sun deck, a Westin WORKOUT™ fitness center, private ski valet, ski accessible suites and beautiful new function spaces for meetings, group functions and special events.

About Snowmass, Colorado – Voted #1 Resort on ski.com!

Breathtaking, exhilarating and huge are just a few ways to describe the crown jewel of Colorado—Snowmass! Often called “**the world’s best ski area**”, the Snowmass Mountain offers the most ski trails than any other mountain in the US.

Snowmass has 3,128 acres of every kind of terrain, with 22 ski lifts. Lift tickets are valid on four mountains (**Snowmass, Aspen, Aspen Highlands, Buttermilk** – all located within 20 minutes of Snowmass and accessible via free transportation), totaling 4,900 acres, with 40 lifts serving over 300 trails.

Don’t know how to ski? Take advantage of **award-winning ski and snowboard schools**. The Snowmass Ski School is staffed to offer every level of lesson in an amazing variety of languages and includes a crackerjack crew of snowboard instructors. Snowmass has something for every level of skier. There are plenty of groomers and cruisers for novice skiers while our steeps, half-pipes and three terrain parks will challenge the best of the best.

After a day on the slopes, enjoy the top-rated après ski and nightlife of Snowmass/Aspen! Only a few miles from Aspen, Snowmass has its own distinct village offering fine restaurants, charming boutiques and exceptional accommodations.
