

NYU School of Medicine

NYU LANGONE MEDICAL CENTER

The Department of Radiology Presents:

NYU's Fall Radiology Symposium in Charleston

October 23–27, 2017

Provided by the NYU Post-Graduate Medical School

Statement of Need/Course Description

This course will concentrate on updates in Abdominal, Thoracic, Breast, Neuroradiology & Musculoskeletal Imaging. All of the lectures will address scanning parameters and how scanning protocols can be optimized in order to minimize the radiation exposure of patients, while maintaining diagnostic quality examinations. Clinical radiologists must stay up-to-date on the latest imaging techniques and the program will review the latest topics including: Lung Cancer Screening, Imaging Thyroid Nodules, Stroke Imaging, Entrapment Neuropathies and Breast MR updates. The expertise presented in this program is meant to be integrated into the participants' practices in an effort to improve their current knowledge, imaging skills and ultimately improve patient care.
