General Information

CONFERENCE LOCATION
New York Hilton Midtown
1335 Avenue of the Americas (53rd Street)
New York City

It’s all about the location! Located in the heart of New York City in Midtown Manhattan, the stylish New York Hilton Midtown hotel is within walking distance from New York’s premier attractions such as Times Square, Radio City Music Hall, Fifth Avenue shopping, Rockefeller Center, Broadway, Central Park, The Museum of Modern Art (MOMA) and many more iconic New York landmarks. Stop by the theatre & transportation desk for tips, tickets and travel in and around the city.

New York Hilton Midtown hotel guestrooms are spacious and stylish with a comfortable work area. All guest rooms feature marble baths, flat-screen TVs and WiFi.

Stay active during your stay in the hotel’s 8,000 sq. ft. fitness center. This Midtown Manhattan hotel offers a wealth of services and amenities designed with comfort and convenience in mind!

NYU Room Block and Rates
Our room block begins Saturday, December 14th and concludes on Sunday, December 22nd. Cutoff Date: November 15th
• Telephone for Reservations: 1-800-HILTONS
• Telephone in New York: 212-586-7000
• Group Name: NYU19
• Group Rate: $289 plus taxes
Room rates include wireless internet

Online Hotel Reservations
You may register online by visiting: http://www.med.nyu.edu/courses/cme/h2t19

Meeting Registration
Registration fees are found on the Registration Form on page 7 of this brochure. You may register for the entire 5 days or on a daily basis. The easiest way to register is online by going to www.radcmex.med.nyu.edu.

Please be sure to provide your email address to receive a confirmation/receipt. If you need to submit a check, please mail the registration form and check to our offices.

Credit Designation Statement
The NYU School of Medicine designates this live activity for a maximum of 43.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

CE Credits
Category A credits will be offered — pending approval from the ASRT.

Self-Assessment Module (SAM)
Self Assessment Modules (SAMs), allowing registrants to obtain ABR SAM credit, will be offered daily at no additional charge.

Red text throughout the program indicates free daily SAMs. A total of 15 SAMs will be offered.

*Pending approval from the ABR

Accreditation Statement
The NYU School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Disclosure Statement
The NYU School of Medicine adheres to ACCME accreditation requirements and policies, including the Standards for Commercial Support regarding industry support of continuing medical education. In order to resolve any identified conflicts of interest, disclosure information is provided during the planning process to ensure resolution of any identified conflicts. Disclosure of faculty and commercial relationships, as well as the discussion of unlabeled or unapproved use of any drug, device or procedure by the faculty, will be fully noted at the meeting.

Special Needs
NYU School of Medicine, in compliance with the legal requirements of the Americans with Disabilities Act, requests any participant of this CME course who is in need of accommodation to submit written requests to our office at least one month prior to the course date.

Dietary Restrictions
Please indicate any dietary restrictions on the registration form or online form.

Special Topics/Questions
If there is a specific topic or question that would help fulfill your educational needs, please submit it on the registration form or online form.
Overview

Target Audience

The program is designed for clinical radiologists in either general or specialized practice, and is appropriate for radiologists in training. Familiarity with the fundamentals of CT, MR, PET, and US technology and applications, as well as basic anatomy, is assumed.

Statement of Need/
Course Description

“The 38th Annual Morton A. Bosniak Head to Toe Imaging Conference” offers an intensive 5 day program reviewing Neurologic, Musculoskeletal, Pediatric, Abdominal, Thoracic, Cardiac, Breast, Emergency, PET/CT and Interventional Radiology. Its continued focus on safety and quality issues, including radiation exposure and contrast reactions and their management, crosses all sub specialty areas.

Due to tremendous growth in the science of imaging and practice of radiology, it is imperative that radiologists continually update their skills and gain exposure to advances in the field. Maintenance of certification requires continued review and adoption of essential and cutting edge imaging techniques in all modalities, covering the entire body. We offer daily Self-Assessment Modules (SAMs) with SAMs credit in key areas of high import or with recent clinical advances. Comparative effectiveness research as it applies to imaging is incorporated throughout the course, allowing immediate application to clinical practice, with an eye towards safety, quality, and the trend towards ‘accountable care organizations’ Utilization of standardized imaging strategies, developed by collaborative teams of imagers and clinicians attentive to safety, quality and economic imperatives, is a growing trend that will be emphasized, supporting the field’s imperative for integration of clinical decision support.

Based on learner’s feedback, and the proven effectiveness of ‘case-based’ learning, the format of the course has been modified to incorporate heavily case-based afternoon sessions, which integrate and apply themes and topics covered in the earlier didactic sessions. ‘Challenging Cases: When we were right, when we were wrong, and why’ format is intended to stimulate discussion and audience questions and input.

The purpose of this course is to provide the registrant with an overview of state-of-the-art imaging methods as they pertain to clinical practice, and to introduce advances in the field in terms of imaging technology, and disease diagnosis and management.

Learning Objectives

After participating in this activity, clinicians should be able to:
• Evaluate and incorporate current imaging techniques and protocols for sub specialty imaging (Abdominal, Musculoskeletal, Neurologic, Thoracic, Cardiac, Breast, PET/CT, Emergency Medicine, Interventional) into clinical practice to enable accurate diagnosis, dictate best therapy options, and assess response to therapy, which may prompt therapy modification as needed.
• Describe the Bosniak classification system, and its applicability to watchful waiting/surveillance management algorithms for small renal mass lesions.
• Describe the recent literature and recommendations for imaging lung nodules and imaging appearances of various subsolid nodules.
• Develop strategies to optimize and incorporate a gamut of studies, including CT, MR and PET, in order to accurately stage neoplasms with minimal cost and radiation exposure.
• Develop imaging protocols and techniques to optimize radiation safety and dose reduction in CT, as well as utilize MR imaging in appropriate patient populations, without compromise to diagnostic quality and accuracy of imaging.

Course Format

You may sign up for the entire 5 days or you may tailor the course content and register on a daily basis. The first lecture each day begins at 7:45 am and the last lecture concludes at 5:30 pm.

MONDAY, DEC 16
Neuroradiology & Interventional Radiology

TUESDAY, DEC 17
Breast Imaging & Pediatric Imaging

WEDNESDAY, DEC 18
Musculoskeletal Imaging & PET Imaging

THURSDAY, DEC 19
Thoracic Imaging & Cardiac Imaging

FRIDAY, DEC 20
Abdominal Imaging & Emergency Imaging

Registration fees on page 7
## Participating Faculty

### Program Director
Georgeann McGuinness, MD, FACR
Professor of Radiology
St Vice Chair, Academic Affairs

### Associate Program Directors

#### Abdominal Imaging
Nicole M. Hindman, MD
Associate Professor of Radiology & Surgery

#### Breast Imaging
Chloe Chhor, MD
Assistant Professor of Radiology

#### Cardiac Imaging
Jill E. Jacobs, MD, FACC, FAHA
Professor of Radiology

#### Emergency Imaging
Mark P. Bernstein, MD, FASER
Clinical Associate Professor of Radiology

#### Interventional Radiology
Jonathan Gross, MD
Clinical Associate Professor of Radiology

#### Musculoskeletal Imaging
Soteros Gyftopoulos, MD, MSc
Associate Professor of Radiology & Orthopedic Surgery

#### Neuroradiology
Girish M. Fatterpekar, MBBS
Associate Professor of Radiology

#### Pediatric Imaging
Shalinee Lala, MD
Assistant Professor of Radiology

#### PET Imaging
Munir Ghesani, MD, FACNM, FACP
Associate Professor of Radiology

#### Thoracic Imaging
Jeffrey B. Alpert, MD
Assistant Professor of Radiology

### Guest Faculty

#### Donna G. Blankenbaker, MD, FACR
Professor of Radiology
University of Wisconsin School of Medicine and Public Health

#### Travis S. Henry, MD
Associate Professor of Clinical Radiology, Cardiac and Pulmonary Imaging Section Director, Cardiothoracic Imaging Fellowship
Department of Radiology and Biomedical Imaging
University of California, San Francisco

#### Vijay Rao, MD, FACR
David C Levin Professor of Radiology
SVP and Chair, Department of Radiology
Thomas Jefferson University and Jefferson Health

#### Edward A. Sickles, MD
Professor Emeritus of Radiology
University of California, San Francisco

### NYU Faculty

#### Eric T. Aalto, MD, MPH
Assistant Professor of Radiology

#### Ronald S. Adler, MD, PhD
Professor of Radiology

#### Erin Alia, MD
Assistant Professor of Radiology

#### Leon Axel, PhD, MD
Professor of Radiology, Medicine and Physiology & Neuroscience

#### Lea Azour, MD
Clinical Assistant Professor of Radiology

#### Alexander Baxter, MD
Clinical Associate Professor of Radiology

#### Genevieve L. Bennett, MD
Assistant Professor of Radiology and Obstetrics & Gynecology

#### Puneet Bhatia, MD
Assistant Professor of Pediatrics & Radiology

#### Mark E. Bittman, MD
Assistant Professor of Radiology

#### Netta M. Bittman, MD
Clinical Associate Professor of Radiology

#### Joseph Boonsiri, MD
Clinical Assistant Professor of Radiology

#### Maria J. Borja, MD
Assistant Professor of Radiology

#### Geraldine Brusca-Augello, DO
Clinical Associate Professor of Radiology

#### Christopher Burke, MD
Assistant Professor of Radiology

#### Hersh Chandarana, MD, MBA
Associate Professor of Radiology
Associate Chair for Clinical and Translational Research

#### Benjamin Cohen, MD
Assistant Professor of Radiology

#### Bari Dane, MD
Clinical Assistant Professor of Radiology

#### Seena Dehkgharani, MD
Associate Professor of Radiology

#### Anna Derman, MD
Clinical Assistant Professor of Radiology

#### Kristin R. Elias, MD
Assistant Professor of Radiology

#### Yiming Gao, MD
Assistant Professor of Radiology

#### Francis G. Girvin, MD
Clinical Associate Professor of Radiology

#### Mari Hagiwara, MD
Associate Professor of Radiology

#### Dan Halpern, MD
Assistant Professor of Medicine

#### Laura Heacock, MD
Clinical Assistant Professor of Radiology

#### Samantha L. Heller, PhD, MD
Associate Professor of Radiology

#### Cash Horn, MD
Assistant Professor of Radiology

#### Chenchen Huang, MD
Assistant Professor of Radiology

#### Rajan Jain, MD
Professor of Radiology & Neurosurgery

#### Stella K. Kang, MD, MSc
Assistant Professor of Radiology & Population Health

#### Jay Karajgikar, MD
Clinical Assistant Professor of Radiology

#### Shawn Karls, MD
Clinical Assistant Professor of Radiology

#### Sooah Kim, MD
Associate Professor of Radiology

#### Jane P. Ko, MD
Professor of Radiology

#### Sergey Kochkine, MD
Clinical Assistant Professor of Radiology

#### Jiyon Lee, MD
Clinical Associate Professor of Radiology

#### Alana A. Lewin, MD
Clinical Assistant Professor of Radiology

#### Elizabeth V. Mausner, MD
Clinical Assistant Professor of Radiology

#### Meredith R. McDermott, MD
Assistant Professor of Radiology

#### Michael B. Mechlin, MD
Clinical Associate Professor of Radiology

#### Alec J. Megibow, MD, MPH, FACR
Professor of Radiology & Surgery
Director of Faculty Practice Radiology

#### Kira Melamud, MD
Assistant Professor of Radiology

#### William H. Moore, MD
Associate Professor of Radiology
Clinical Director, Radiology Information Technology
Chief, Thoracic Imaging

#### David P. Naidich, MD
Research Professor, Radiology
Professor Emeritus of Radiology and Medicine

#### Gopi K. Nayak, MD
Clinical Assistant Professor of Radiology

#### Aspan S. Ohson, MD
Assistant Professor of Radiology

#### Manish S. Parikh, MD
Associate Professor of Surgery

#### Lynne P. Pinkney, MD
Clinical Associate Professor of Radiology

#### Alireza Radmanesh, MD
Assistant Professor of Radiology

#### Michael P. Recht, MD
Louis Marx Professor & Chair of Radiology

#### Beatiru Reig, MD, MPh
Assistant Professor of Radiology

#### Zehava S. Rosenberg, MD
Professor of Radiology & Orthopaedic Surgery

#### Andrew B. Rosenkrantz, MD
Professor of Radiology & Urology

#### Leon D. Rybak, MD
Associate Professor of Radiology

#### Mohammad M. Samim, MD
Assistant Professor of Radiology

#### Krishna Shanbhogue, MD
Associate Professor of Radiology

#### Maria C. Shiu, MD
Associate Professor of Radiology

#### Chrystia Slywotzky, MD
Clinical Associate Professor of Radiology

#### Mylles Taffel, MD
Associate Professor of Radiology

#### Bedros Taslakian, MD
Clinical Assistant Professor of Radiology

#### Angela Tong, MD
Clinical Assistant Professor of Radiology

#### Renata La Rocca Vieira, MD
Clinical Associate Professor of Radiology

#### William R. Walter, MD
Clinical Assistant Professor of Radiology

#### Matthew G. Young, DO
Clinical Assistant Professor of Radiology

#### Elcin Zan, MD
Assistant Professor of Radiology

Confirmation of Course Acceptance: A confirmation will be sent to you by email if your email address is provided.

Refund Policy: If you need to cancel your enrollment, a $75 service fee will be assessed for your tuition payment if written notice is received more than 30 days in advance and a $150 service fee for cancellations made within 30 days. No refunds are possible if written notification is not sent.

Course Cancellation Policy: In the unusual circumstance that this course is cancelled, two weeks notice will be provided and full tuition refunded. The NYU Post-Graduate Medical School is not responsible for any airfare, hotel or other costs incurred.

EDUCATIONAL NEEDS
If there is a specific question or topic relating to this course, please submit it on the registration form or on the website when registering online.

*Discounted Fees apply to NYU School of Medicine alumni, M.D.'s employed by the Dept of Veterans Affairs, full-time active military personnel, technologists, retired physicians, current residents/fellows, Canadian and other non-U.S. physicians.
