Health Disparities Research Training Program (HDRTP)

Department: Population Health
Job Title: CHRNA Spring 2020
Reports to: Laura Wyatt/Jennifer Wong
Office Location: New York, NY

The mission of the NYU Center for the Study of Asian American Health (CSAAH) is to reduce health disparities in the Asian American community through research, training and partnership. As a core area of the Center for the Study of Asian American Health, the HDRTP provides training, outreach, and research opportunities for students and health professionals to gain knowledge and skills to address Asian American health disparities.

Position Summary
The Section for Health Equity at NYU School of Medicine’s Department of Population Health is looking for an intern to support its CHRNA project. The Center is collaborating with several community partners on a Community Health Resources and Needs Assessment (CHRNA) project. The CHRNA is a large-scale health needs assessment focused on using a community-engaged and community venue-based approach to assess basic demographic and health information. The CHRNA will include partnerships with nationally dispersed, community-based organizational partners who service diverse and varied Asian American (AA), Native Hawaiian, and Pacific Islander (NHPI) communities. Data from these assessments will inform community projects and future research.

Job Responsibilities
Depending on timeline of the project, the individual will help with the development of a REDCap database to support the CHRNA project, and will assist with data entry. Data cleaning and analyses will be performed using a software platform such as SPSS or SAS. Interns may also have an opportunity to assist with synthesizing results, including writing and data visualization tasks as well as the creation of a final report template. The individual may also contribute to regular meetings with community and health center partners’ to support their CHRNA-related research capacity and ability to administer the CHRNA survey tool with diverse, low-income and LEP AANHPI communities.

Working Conditions: Standard office environment
Preferred work hours: 20hrs/week
Desired start date: March 2020 (TBC)

Qualifications
- Students and professionals in medicine, public health, social work, nursing and other health related fields are encouraged to apply.
- Be committed to addressing disparities in AANHPI health
- Have a willingness to work and learn from colleagues at varying levels of health expertise
- Have an interest and/or familiarity with REDCap database(s) and data analysis.
- Proficient in SPSS, SAS, R or similar software program
- Excellent organizational, communication, and time management skills, with high attention to detail.
- Ability to work independently.

How to Apply: If interested in HDRTP, please send a cover letter, resume, and a completed HDRTP application (available at bit.ly/nyuhdrtp) to Jennifer Wong at Jennifer.Wong@nyulangone.org. Please include “CHRNA Spring 2020 Intern” in the email heading.
