COURSE DESCRIPTION
This course will focus on the current status of survivorship. Through lectures and panel discussions, the conference will provide the knowledge and understanding needed for the coordination and implementation of optimal care for cancer survivors. This course will focus on strategies for wellness and improved quality of life. Key topics of discussion will include updates on advances and research, understanding the Survivorship Care Plan, the importance of surveillance for recurrence as well as genetics, integrative health, sexual health, pain management, cardiac care and bone health.

TARGET AUDIENCE
Oncologists, primary care physicians, nurse practitioners, physician assistants, registered nurses, advanced practice nurses, dieticians, psychologists, social workers, medical students, nursing students, residents, fellows and all interested clinicians.

EDUCATIONAL OBJECTIVES
After participating in this activity, clinicians should be able to:

• Identify the risks, effectiveness and benefits of cancer treatment interventions
• Coordinate and implement tools to deliver care for cancer survivors and use a treatment summary and survivorship care plan to improve patient quality of life
• Access current research describing the link between lifestyle changes and improving outcomes and make recommendations to their patients

• Identify, manage and refer patients to specialists who can help improve outcomes from the late effects of cancer treatment

COURSE FEES
Full: $175
Reduced *: $90
NYU Langone/Lutheran Faculty and Staff**: $90

* Reduced fee applies to NYU School of Medicine alumni, former residents and fellows; physicians employed by the Department of Veterans Affairs Medical Center; full-time active military personnel; nurse practitioners; retired physicians; and all other non-physician healthcare professionals
