Course Description
The diagnosis and management of many urologic diseases have been greatly influenced by recent pharmacological, surgical and technological advances. One of the greatest challenges of the practicing urologist is to stay abreast with the many dynamic changes in this field. An internationally acclaimed faculty has been assembled to provide this update, with presentations on topics such as Surgical Management of BPH, Renal Cell Carcinoma, Female Pelvic Medicine, Upper Tract Endourology, Testosterone Replacement/ED and Pediatrics. During the plenary sessions, the registrants will have the opportunity to participate in question and answer sessions. In addition, an emphasis on case presentations with faculty participation will enhance the practical value of the course.

Target Audience
Practicing community and academic urologists, primary care physicians, nurses, nurse practitioners, physician assistants and residents.

Statement of Need
As the use of social media in medicine continues to expand, additional knowledge is needed on how to use this new media in clinical and academic practices. Physicians need to know the guidelines for social media when using this for their practices.

The best practice treatment of urethral stricture has changed over the past 20 years. New techniques for treatment of urethral stricture, such as the use of buccal mucosa graft, are unfamiliar to many Urologists. Urologists need to be updated on the advances in diagnostic modalities and treatment options for this condition.

Vesicoureteral reflux (VUR) occurs in approximately 1-3% of children. A urinary tract infection (UTI) can be a symptom of VUR. Participants need to know how to diagnose and manage vesicoureteral reflux in children.

Cryptorchidism is a frequent condition in the pediatric population. Participants need to be able to diagnose and manage cryptorchidism in children.

Endourology is a rapidly changing field with multiple new technologies. Urologists need to be able to differentiate between novelty and efficacy; to embrace new methods when necessary. Kidney stones affect over 10% of the population and 50% of stone formers will recur.

It is important for urologists to understand how to effectively treat stones as well as to prevent their recurrence. Large kidney stones represent a clinical challenge. Until recently there was only one viable approach—prone PCNL, but others have emerged and it is often difficult to determine which approach to use and when.

Benign Prostatic Hyperplasia (BPH) becomes gradually more common as men age. Symptomatic patients may benefit from medical or surgical treatment. Knowledge regarding surgical innovations is important.

Renal cell carcinoma (RCC) is one of the most common types of kidney cancer. It is among the most lethal, with approximately 35% of patients dying within 5 years of diagnosis. Many controversies exist in the management of small renal masses.

Botulinum toxin has become a powerful therapeutic tool for a growing number of clinical applications. In 2013, the U.S. Food and Drug Administration (FDA) expanded the indications for the use of botulinum toxin to include treatment of overactive bladder (OAB).

Educational Objectives
At the conclusion of this activity, participants should be able to:

- Apply the many uses of social media in their clinical and academic urology practice
- Describe the best practice diagnostic evaluation of urethral stricture, the current treatment of urethral stricture and the success rates of the different treatment techniques for urethral stricture (dilation, urethrotomy, urethroplasty)
- Evaluate and execute a treatment plan for children who present with urinary tract infections
- Discuss and apply recently published national guidelines for the diagnosis and management of boys with cryptorchidism
- Discuss the history of endourology as well as current new technologies and those just around the corner in order to better select treatment modalities
- Identify the advantages and disadvantages of supine vs. prone approach to percutaneous nephrolithotomy as well as indications for a robotic or laparoscopic approach
- Review treatment options for small renal masses in order to apply this knowledge in their clinical practices
- Critically evaluate new surgical technologies for BPH; contrast and compare and apply these technologies
- Review the treatment options for small renal masses in order to apply this knowledge in their clinical practices
- Describe the available evidence-based data for botulinum toxin in overactive bladder and consider usage for this condition
NYU Langone Faculty

Joseph Alukal, MD
Assistant Professor of Urology and Obstetrics and Gynecology
Director, Male Reproductive Health

Arjun V. Balar, MD
Assistant Professor of Medicine
Co-Leader Genitourinary Cancers Program
Perlmutter Cancer Center at NYU Langone

James Borin, MD
Assistant Professor of Urology

Benjamin Brucker, MD
Assistant Professor of Urology and Obstetrics and Gynecology
Female Pelvic Medicine and Reconstructive Surgery, Neurourology and Voiding Dysfunction

David S. Goldfarb, MD
Professor of Medicine and Neuroscience and Physiology

William Huang, MD
Associate Professor of Urology
Urologic Oncology

Christopher E. Kelly, MD
Assistant Professor of Urology

Steven Lamm, MD
Clinical Professor of Medicine
Medical Director, Preston Robert Tisch Center for Men’s Health at NYU Langone

Stacy Loeb, MD, MSc
Assistant Professor of Urology and Population Health

Danil V. Makarov, MD, MHS
Assistant Professor of Urology and Population Health

Victor W. Nitti, MD
Professor of Urology and Obstetrics and Gynecology
Vice Chairman, Department of Urology
Director of Female Pelvic Medicine and Reconstructive Surgery

Nirit Rosenblum, MD
Assistant Professor of Urology
Female Pelvic Medicine and Reconstructive Surgery

Mark D. Schwartz, MD
Professor of Population Health and Medicine
Vice-Chair for Education and Faculty Affairs, Department of Population Health

Ellen Shapiro, MD
Professor of Urology
Director, Pediatric Urology

R. Ernest Sosa, MD
Clinical Professor of Urology
Chief of Urology, VA New York Harbor
Health Care System, Manhattan

Michael Stifelman, MD
Professor of Urology
Director, Robotic Surgery Center
Chief of Service, Department of Urology, Tisch Hospital Service

Samir Taneja, MD
The James M. Neissa and Janet Riha Neissa Professor of Urologic Oncology
Professor of Radiology
Director, Urologic Oncology

Howard S. Weintraub, MD, FACC
Clinical Professor Department of Medicine
Division of Cardiology
Clinical Director of Center for the Prevention of Cardiovascular Disease

Lee C. Zhao, MD, MS
Assistant Professor of Urology
Urologic Trauma, Reconstructive Surgery and Male Sexual Health

Guest Faculty

Jeffrey Cadeddu, MD
Professor of Urology, Radiology Biomedical Engineering
Ralph C. Smith, MD, Distinguished Chair in Minimally Invasive Urologic Surgery
University of Texas Southwestern Medical Center
Dallas, TX

John Denstedt, MD, FRCS(C), FACS
Professor of Urology
Chairman, Department of Surgery
The University of Western Ontario
London, Ontario, Canada

Michael A. Ferragamo, MD, FACS
Clinical Assistant Professor of Urology
State University of New York at Buffalo School of Medicine
Director of Pediatric Urology
Women & Children’s Hospital of Buffalo
Buffalo, NY

Douglas A. Husmann, MD
Anson L. Clark Professor of Urology
Mayo Clinic
Rochester, MN

Manoj Monga, MD
Professor
Director, Center for Endourology and Stone Disease
Cleveland Clinic
Cleveland, OH

Ojas Shah, MD
Professor of Urology
Director, Endourology and Stone Disease
Columbia University College of Physicians & Surgeons
New York, NY

Dan Theodorescu, MD, PhD
Professor of Surgery and Pharmacology
Paul A. Bunn, Professor of Cancer Research
Director, University of Colorado Cancer Center
University of Colorado
Aurora, CO

Sandip P. Vasavada, MD
Associate Professor of Surgery (Urology) at the Cleveland Clinic Lerner College of Medicine
Cleveland, OH
GENERAL INFORMATION

Location
NYU Langone Medical Center
Alumni Hall, Farkas Auditorium
550 First Avenue (31st St.)
New York, NY 10016

Mailing Address and Contact Information
Registration Office
NYU Post-Graduate Medical School
550 First Avenue
New York, NY 10016
Phone: (212) 263-5295
Fax: (212) 263-5293

Accreditation Statement
The NYU Post-Graduate Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation Statement
The NYU Post-Graduate Medical School designates this live activity for a maximum of 16.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure Statement
The NYU Post-Graduate Medical School adheres to ACCME accreditation requirements and policies, including the Standards for Commercial Support regarding industry support of continuing medical education. In order to resolve any identified conflicts of interest, disclosure information is provided during the planning process to ensure resolution of any identified conflicts. Disclosure of faculty and commercial relationships, as well as the discussion of unlabeled or unapproved use of any drug, device or procedure by the faculty, will be fully noted at the meeting.

Hotel Accommodations
Rooms are in very heavy demand in New York City; we urge you to make your reservations early. You may obtain a list of hotels located near NYU Langone Medical Center by visiting our website: http://www.med.nyu.edu/cme/travel

Parking
For information, please visit http://nyulangone.org/locations/tisch-hospital/parking
We cannot validate parking for registrants.

Course Fees
Full Fee: $595
Reduced Fee*: $495

*Reduced Fee applies to: NYU School of Medicine alumni, former residents and fellows; physicians-in-training with letter of certification from the Chief of Service; physicians employed by the Department of Veterans Affairs Medical Center; full-time active military personnel; nurse practitioners; retired physicians; and all other non-physician healthcare professionals

Visit our secure website http://med.nyu.edu/cme/urology to submit online registration
Thursday, December 10

7:15 am  Registration and Continental Breakfast

**PEDIATRICS**
Moderator: *Ellen Shapiro, MD*

8:00  Update on Vesicoureteral Reflux in Children
*Saul P. Greenfield, MD*

8:25  AUA Guidelines on Cryptorchidism
*Saul P. Greenfield, MD*

8:50  Transitional Urology: What the Adult Urologist Needs to Know to Manage the Consequences of Cryptorchidism, Vesicoureteral Reflux and Bladder Augmentations in the Adult Patient
*Douglas Husmann, MD*

9:40  Question & Answer

10:00  Coffee Break

**PROSTATE CANCER**

10:15  Advances in Prostate Imaging/Detection/Ablation
*Samir Taneja, MD*

11:00  Prostate Cancer Cases
*Herbert Lepor, MD*

11:45  Surgical Management of BPH
*Christopher Kelly, MD*

12:15 pm  Lunch (On Your Own)

1:15  Managing Complications of AUS and Penile Implants
*Lee Zhao, MD, MS*

**RENAL CELL**
Moderator: *William Huang, MD*

1:45  Controversies in the Management of the Small Renal Mass
*William Huang, MD*

2:10  Ablation of Small Renal Masses — Who, When and Why Not?
*Jeffrey Cadeddu, MD*

*Jeffrey Cadeddu, MD*

3:00  Coffee Break

3:15  Advances in Robotic Techniques for Radical and Partial Nephrectomy
*Michael Stifelman, MD*

3:45  State-of-the-Art Treatment of Metastatic RCC — Looking Beyond the Targeted Therapies
*Arjun V. Balar, MD*

4:15  Case Presentations
*Arjun V. Balar, MD
Jeffrey Cadeddu, MD
William Huang, MD
Michael Stifelman, MD*

4:30 pm  Adjourn

Friday, December 11

7:30 am  Registration and Continental Breakfast

**FEMALE PELVIC MEDICINE**
Moderator: *Victor W. Nitti, MD*

8:00  Robotic Surgery in FPMRS
*Nirit Rosenblum, MD*

8:25  Handling Mesh Problems in Female Pelvic Reconstructive Surgery
*Benjamin Brucker, MD*

8:50  QUESTION & ANSWER

9:00  Optimizing Neuromodulation in Urologic Practice
*Sandip P. Vasavada, MD*

9:25  Botulinum Toxin, Clinical Trials and Beyond
*Victor W. Nitti, MD*

9:50  Question & Answer

10:00  Coffee Break
REIMBURSEMENT/SOCIAL MEDIA/CODING

10:15  Physician Reimbursement
       In The Era of Health Care Reform
       Mark D. Schwartz, MD

10:45  Social Media
       Stacy Loeb, MD, MSc

11:15  Shared Care
       Danil V. Makarov, MD, MHS

11:45  Coding Update 2015
       Michael A. Ferragamo, MD, FACS

12:15 pm  Question & Answer

12:30 pm  Lunch (On Your Own)

HYPOGONADISM
Moderator: Joseph Alukal, MD

1:30  When did Urologists become Primary Care Doctors?
       Joseph Alukal, MD

1:50  Testosterone and Heart Health
       Howard S. Weintraub, MD, FACC

2:20  Treatment of Hypogonadism — New Options and Future Directions
       Joseph Alukal, MD

2:40  Coffee Break

2:50  Testosterone and Obesity
       Steven Lamm, MD

3:10  Current Management of Erectile Dysfunction and Hypogonadism
       Joseph Alukal, MD

3:30  Case Studies and Question & Answer
       Joseph Alukal, MD

4:00 pm  Adjourn

Saturday, December 12

8:30 am  Registration & Continental Breakfast

9:00  Personalized Medicine
       Dan Theodorescu, MD, PhD

UPPER TRACT ENDUROLOGY/STONES
Moderator: James Borin, MD

9:45  To Treat or Not to Treat: Incidental Asymptomatic Stones and Residual Fragments
       Manoj Monga, MD

10:00  Fifty Ways to Treat a Stone
       James Borin, MD

10:15  Renal Ureteroscopy for Stones:
       To Dust or To Basket
       Ojas Shah, MD

10:30  Medications, Supplements and Kidney Stones
       David S. Goldfarb, MD

11:00  PCNL: Past, Present and Future
       John Denstedt, MD, FRCS(C), FACS

11:20  Coffee Break

11:35  Point-Counterpoint: Always Stent vs. Rarely Stent
       John Denstedt, MD, FRCS(C), FACS
       Ojas Shah, MD

11:50  Imaging for Acute Renal Colic:
       Renal US vs. Low-Dose CT
       James Borin, MD
       Manoj Monga, MD

12:05  Panel Discussion/Interesting Cases
       James Borin, MD
       David S. Goldfarb, MD
       Manoj Monga, MD
       Ojas Shah, MD
       R. Ernest Sosa, MD

12:30 pm  Adjourn

Upcoming Courses 2016

June 10-11, 2016 — 2nd Annual NYU Langone Multi-Specialty Robotics Course
June 17-18, 2016 — Advances in Prostate Imaging and Ablative Treatment of Prostate Cancer
September 23-24, 2016 — Advances in Female Pelvic Medicine and Reconstructive Surgery
December 8-10, 2016 — Surgical, Pharmacological, and Technological Advances in Urology
Surgical, Pharmacological, and Technological Advances in Urology

Thursday–Saturday, December 10–12, 2015
NYU Langone Medical Center, Alumni Hall, Farkas Auditorium,
550 First Avenue (31st St.), New York, NY 10016

METHODS OF PAYMENT: (Cash, email and phone registration are not accepted)
If faxing, do not mail or refax. This will only result in a duplicate charge to your account. Registration is non-transferable.

☐ Check in U.S. Dollars only: $___________
☐ Credit Card Payment (see below)
☐ International Postal Money Order: $___________
   (Foreign registrants, including those from Canada, must pay by International Postal Money Order or credit card.)

PAYMENT BY CREDIT CARD: Credit card payments may be faxed to (212) 263-5293.

Bill To:  ☐ Visa  ☐ MasterCard  ☐ American Express
Amount to be charged: $___________
Credit Card Number: ____________________________  Expiration Date ___________  CVV Code __________
Card Member’s Name: ____________________________  Signature ____________________________

MAKE CHECK PAYABLE TO:
NYU Post-Graduate Medical School

SEND TO:
Registration Office
NYU Post-Graduate Medical School
550 First Avenue
New York, NY 10016

REFUND POLICY: In order to request a refund, you must email maria.mercado@nyumc.org no later than 14 days prior to the first day of the course. An administrative fee of $75 will be deducted from your refund. Cancellations or no-shows after this date are not eligible for a refund.

COURSE CANCELLATION POLICY: In the unusual circumstance that this course is cancelled, two weeks notice will be given and tuition will be refunded in full. The NYU Post-Graduate Medical School is not responsible for any airfare, hotel or other costs incurred.

Special needs or requests: ________________________________

COURSE FEES
☐ Full-Fee: $595
☐ Reduced Fee: $495*  
*Reduced Fee applies to: NYU School of Medicine alumni, former residents and fellows; physicians-in-training with letter of certification from the Chief of Service; physicians employed by the Department of Veterans Affairs Medical Center; full-time active military personnel; nurse practitioners; retired physicians; and all other non-physician healthcare professionals

After 12pm on December 8, 2015, only onsite registration is available, provided the course has not reached capacity. Onsite registrants will incur an additional $20 charge and will receive a receipt by email in 1-2 weeks.
