The CTSI Mentor Development Program, an NYU-HHC Clinical and Translational Science Institute (CTSI) Training Research Education and Careers (TREC) program, has developed an innovative curriculum for training research faculty to become the next generation of effective clinical and translational mentors. The goal of this 7 session program is to help participants to improve their mentoring skills. Faculty members dedicated to clinical and translational research are invited to apply for participation in the Spring 2016 Mentor Development Program (MDP).

The MDP, directed by Adina Kalet, was launched in 2010 and has since trained over 50 mentors. Ten to twenty junior faculty from all disciplines, with the support of their department chairs, will be chosen to participate.

**Application Process**

To apply, please complete the [online application](#). For more information, visit us at the [CTSI MDP page](#) or contact Ms. Claudia Galeano.

**Deadline:** Monday, February 29, 2016.

**Seminar Topics Include**

- What is our role in Clinical Translational Research? What will it take?
- Defining the Mentoring Relationship and Appreciating its Rewards and Challenges
- Effective Mentoring and Diversity
- Self-differentiation and Attunement
- Theories of Leadership: Maps for Mentoring
- Time Management
- Strategies for Writing Collaboratively
- Difficult Issues in Mentoring

**Seminar Dates**

*All sessions will be held from 10AM-12PM in the Translational Science Building.*

- Friday, March 25
- Friday, April 1
- Friday, April 8 *(no meeting)*
- Friday, April 15
- Friday, April 22
- Friday, May 6
- Friday, May 20
- Friday, May 27
