When to Cite the CTSI

Following are guidelines to help you determine when to cite the NIH-funded NYU-H+H CTSI grant number in your publications, presentations, grants, or other research products.

If you received:

**Services for your research project, including free or subsidized services:**

- Funding (pilot awards, grants, or vouchers)
- Education and training programs (e.g., CTSI KL2 scholars, TL1 trainees, CTSI Degree/Certificate or training programs)
- Consultations or support services (>= 30mins) from any CTSI service (e.g., biostatistics, community engagement, studios, etc.)
- Access to biomedical informatics tools (e.g., REDCap i2b2, DataCore, ACT, Epic Research)
- Use of the Clinical Research Center (CRC)

Then, you **SHOULD** cite NYU-H+H CTSI

—or—

If you received:

**Infrastructure support for your research project:**

- Coordination and support from CTSI faculty or staff (e.g., coordinating meetings, facilitation, or planning)
- Other technical assistance for only one aspect of the research that played an important role (e.g., help on an IRB application)

Then, you can **CHOOSE** to cite NYU-H+H CTSI

---

The CTSA Consortium aims to improve human health by transforming the research and training environment to enhance the efficiency and quality of clinical and translational research.

Cite the CTSA

All publications, press releases, or other documents that result from the utilization of any NYU-H+H CTSI resource are required to credit the CTSA grant and comply with NIH Public Access Policy (submission to PubMed Central). Provided below is the recommended language for use in the acknowledgments or grant support section of your manuscripts based on the type of support/funding you received.

CTSI Researchers and Pilot Grant Awardees

"The project described was supported by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, through Grant Award Number UL1TR001445. The content is solely the responsibility of the authors and does not necessarily represent the official views of the NIH."

KL2 Scholars (KL2)

"The project described was supported by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, through Grant Award Number KL2TR001446. The content is solely the responsibility of the authors and does not necessarily represent the official views of the NIH."

TL1 Trainees (TL1)

"The project described was supported by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, through Grant Award Number TL1TR001447. The content is solely the responsibility of the authors and does not necessarily represent the official views of the NIH."

To Acknowledge CTSI Support of a Manuscript

"We acknowledge the editorial assistance of the NYU-H+H Clinical and Translational Science Institute (CTSI), which is supported by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, through Grant Award Number UL1TR001445."
