Diversity Scholarship Application

Dear Applicant,

We welcome qualified applicants to apply for a scholarship to participate in a dermatology elective in our department. During this elective, you will be exposed to the many aspects of dermatologic diagnosis and treatment by actively participating in the ambulatory and inpatient programs. The elective is conducted in all three departmental services: The Skin and Cancer Unit at the Ambulatory Care Center, NYC Health + Hospitals/Bellevue, and the New York Harbor Healthcare System - Manhattan Veterans Administration Medical Center. The rotation includes a medical student lecture series and daily teaching conferences. At the end of the general dermatology elective, you should be able to properly perform a history and physical examination of a patient with skin disease, describe the morphology of skin diseases, recognize common skin conditions and their treatments, and determine when it is appropriate to refer patients to dermatologists or other specialists.

The Diversity, Equity, and Inclusion program within the Ronald O. Perelman Department of Dermatology is overseen by Drs. Daniel Gutierrez & Prince Adotama. In order to apply for the scholarship, you must be a rotating medical student in a regular 4-week rotation (you must be within the fourth quarter of your third year or within the fourth year) be a US citizen from an accredited American allopathic medical school, be in good academic standing, and complete the clerkship. The scholarship is in the amount of $2,000 and will be paid at the successful completion of the four (4) week elective in dermatology.

Prior to completing this scholarship application, you should first apply to a Dermatology rotation via the NYU Grossman School of Medicine registrar at med.nyu.edu/departments-institutes/dermatology/education/medical-student-training. Upon completion, you should complete this application and attach a copy of the requested additional documents including Curriculum Vitae (CV), a letter of recommendation, medical school transcript, and letter of interest.

Please send completed application to the attention of:

Craig Burke, Program Associate
