

Department of
Obstetrics and Gynecology

Maternal-Fetal Medicine Fellowship

The academic mission of the Maternal-Fetal Medicine Fellowship in NYU Langone's Department of Obstetrics and Gynecology is to train fellows to be physician-scientists and specialists. Under the leadership of Christina A Penfield, MD., fellowship director, our three-year training program paves the way for board certification in maternal-fetal medicine. The program accepts two fellows per year.

Meet Our Current Fellows

Meralis Lantigua Martinez, MD

First-Year Fellow; Class of 2026

Hometown: Carolina, Puerto Rico

Medical school: Columbia University College of Physicians and Surgeons

Areas of interest: Hypertensive Disorders of Pregnancy, Perinatal Mood Disorders, and Medical Education

Hobbies: Spending time with friends and family, traveling with my husband, and finding fun shows on Netflix

Why I chose NYU Langone: After training at NYU for residency, I knew that NYU MFM was the ideal fellowship training environment for me. I'm drawn to the diversity in our clinical sites, in our patient populations, and in the pathology we diagnose and treat. The residents are delightful to work with and the division faculty is deeply welcoming and supportive of trainees.

Naima Ross, MD

First-Year Fellow, Class of 2026

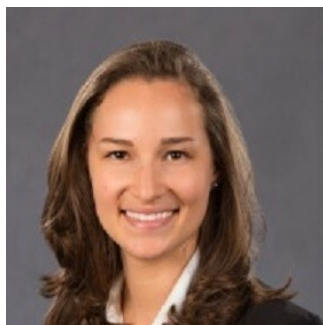

Hometown: St. Louis, Missouri

Medical school: Columbia University College of Physicians and Surgeons

Areas of interest: Health disparities, Postpartum Care, Pre-Eclampsia, and Quality Improvement

Hobbies: High-intensity interval training, pilates, travel, trying out new restaurants

Why I chose NYU Langone: NYU Langone offered everything I was looking for in a program: a diverse and high-acuity patient population, hands-on ultrasound training, exposure to wide variety of pathology, excellent research opportunities, and a supportive environment.

Dana Berger, MD

Second-Year Fellow, Class of 2025

Hometown: Cherry Hill, New Jersey

Medical school: University of Miami Miller School of Medicine

Areas of interest: Prematurity, Multiple Gestations, and Mode of Delivery/rates of Cesarean Delivery

Hobbies: hiking, biking, yoga, cooking, and traveling

Why I chose NYU Langone: I chose NYU Langone for the diversity of the patient population among the clinical sites, which in turn provides such a breadth and depth of pathology on both the maternal and fetal sides. I also was drawn to the prestige of the program, which has an emphasis on evidence-based medicine, and a strong didactic curriculum. Finally, I loved the people on my interview as well as the supportive environment.

Meet Our Current Fellows

Andre Robinson, MD

Second-Year Fellow, Class of 2025

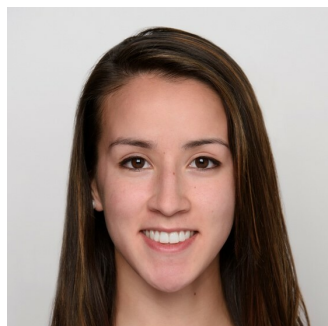

Hometown: Middlebury, Vermont

Medical school: University of Vermont

Areas of interest: Hypertensive Disorders of Pregnancy, Abnormal Placentation, Medical Education, and Quality Improvement

Hobbies: rollerblading, biking, skiing, and cooking

Why I chose NYU Langone: I wanted a hands-on program that also balanced service with education, which is done very well here. I was so excited and nervous on my interview day, but everyone I met made me feel comfortable and shared my excitement. Since starting the fellowship, that has remained true and I have found mentors who I am thrilled to call colleagues.

Jessica Meyer, MD

Third-Year Fellow, Class of 2024

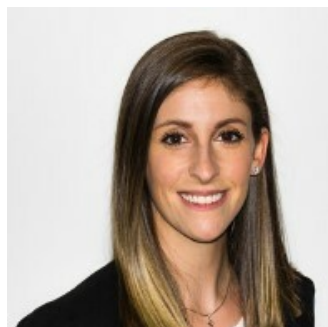

Hometown: Morrisville, Pennsylvania

Medical school: New York University School of Medicine

Areas of interest: Hypertensive Disorders of Pregnancy, Placental Pathology/Physiology, Obstetrical Ultrasound, and Preterm Birth

Hobbies: exploring the city with my husband (Harry) and Ridgeback puppy (Nairobi), visiting PSU for football games, strength/HIIT training, painting, and working my way through all of the fun restaurants in all 5 boroughs.

Why I chose NYU Langone: Becoming an "NYU lifer" began when I was accepted as into the three-year MD degree pathway for obstetrics and gynecology and then completed residency with my incredible NYU Langone obstetrics and gynecology family.

Jenna Silverstein, MD

Third-Year Fellow, Class of 2024

Hometown: Richmond Hill, Ontario

Medical school: St. George School of Medicine

Areas of interest: Ultrasound, Maternal Critical Care, and Medical Education

Hobbies: hiking, photography, cocktail-making, trying new restaurants, watching movies

Why I chose NYU Langone: NYU Langone offers a very thorough training experience with a great balance of inpatient, outpatient office, ultrasound, and procedure exposure. There is a wide variety of pathology, including many rare conditions seen between the diverse sites. The MFM division members are all very supportive of one another and welcoming.

2023 MFM Fellowship Alumni

Myah Griffin, MD, Class of 2022

Megan Trostle, MD, Class of 2022

Meghana Limaye, MD, Class of 2021

Jill Wescott, MD, Class of 2020

Antonia Francis Oladipo, MD, Class of 2019

Cara Dolin, MD, Class of 2018

Terri-Ann Bennnett, MD, Class of 2017

Margaret Dziadosz, MD, Class of 2016

Jonathan Rosner, MD, Class of 2015

Marcos Cordoba-Munoz, MD, Class of 2014

Simi Gupta, MD, Class of 2013
