   As shown in the palette example above, the number of seats available in each clerkship palette is listed next to the Palette ID (e.g. Palette A has 14 seats). If you are lottery number 52, you need to select multiple palettes with the number of seats equal to, or greater than the number 52, to ensure that you receive a palette assignment. For example, you might choose, Palette A (14 seats) as choice one, Palette C (6 seats) as choice two, Palette F (6 seats), as choice three, Palette I (13 seats) as choice four and Palette L (13 seats) as the final choice. This selection equals exactly 52, the number of seats you need to rank to assure you receive a palette in the lottery process. You should make your palette selection in order of your preference regardless of your lottery number.
