ACFOR is an innovative 3-year accelerated medical school curriculum that culminates in the M.D. degree and leads to a position in the Orthopedics Residency program at MUSC.

For appropriately selected students, this track provides:
1. Reduced medical student debt
2. Reduced time to complete overall medical training
3. Reduced burden of interview and application process for Orthopedic residency

ACFOR students complete two years of basic science coursework, all required third year clerkships, and 25 weeks of additional coursework. Interested students apply to enter the accelerated track in the fall of their second year. Those who attain progress milestones may then interview for the Orthopedics residency spot midway through third year. Up to 2 students are selected.

ACFOR application and selection process:
- In Year 2, interested students submit a personal statement, Curriculum Vitae, and a waiver to review preclinical grades, professionalism index, Step 1 score once available, and MCAT scores, and undergraduate transcript.
- Selection committee determines which students are eligible to enter the track.
- ACFOR-eligible students follow a specified Year 3 schedule to ensure specific clerkships before mid-year and an orthopedics elective in the month preceding the final interview.
- At the midpoint of Year 3, ACFOR-eligible students who remain interested and demonstrate competency are invited to submit updated application materials and scheduled for an interview with the Dept of Orthopedics.
- Following the final interview, up to 2 students are selected to enter the ACFOR program.

ACFOR Program Curriculum Modifications:
- Selected students complete required clerkships.
- The two remaining elective periods in Year 3 are utilized to complete a Critical Care Elective and Internship 101.
- Step 2CK and 2CS are completed in June.
- Year 4 includes an Advanced Surgery Orthopedics Elective, Medicine Core Rotation in Pulmonary, Radiology Elective with a musculoskeletal focus, and a Surgery Externship chosen from specific pool.
- Students register for ERAS and NRMP; Dept of Orthopedics then requests Family Medicine Accelerated Program exemption to NRMP All-in policy.
- Students graduates after successful completion of requirements and competency assurance.
- Begins residency in November.

Megan Grinnell grinnell@musc.edu

Challenges
- Appropriate student-centered counseling/advising on pros/cons of program
- Navigating potential conflict of interest with the participating department(s)
  • All students receive good letters and advising.
  • Very competitive students who opt for broad application plan aren’t penalized internally.
  • Logistics of mid-year graduation
  • Pro-rating tuition
  • Funding extra resident salary
  • Improving screening and selection process for appropriate students.
  • Ensuring competency of selected student(s).
  • Exception to NRMP All-in rule

Program Status & Accomplishments
Pilot Year:
- 11 student applied, 4 were deemed ineligible, 7 began the track.
- After beginning this track, 2 participants declined to participate and 5 continued.
- 1 student was selected in the final interview and is currently entering the modified Year 4 curriculum with plan to begin residency Nov 2017.

Year 2
- 9 students applied, 5 were selected as eligible to be considered for the track.
- These 5 eligible students have entered the Year 3 curriculum for ACFOR and selection of 2nd student cohort will occur in Jan 2018.

Future Planning
- With revisions in preclinical curriculum, we plan for the ACFOR student to graduate after three completed years.
- Exploring expansion to Family Medicine, Internal Medicine, Pediatrics, Surgery, Psychiatry, Obstetrics, Neurology, Pathology, Ophthalmology, Radiation Oncology, Anesthesiology, Radiology, ENT.

ACFOR Program Curriculum:
- Year 1: 35 weeks + Summer Fellowship in Orthopedic Research
- Year 2: 24 weeks + UBGU Step 1 Preparation Course + Optional ORTHOS SURG Selective
- Year 3: 48 weeks Clinical Skills Curriculum
  - Medicine Clerkship (5 weeks)
  - OB/GYN Clerkship (5 weeks)
  - Surgery Clerkship (5 weeks)
  - Pediatrics Clerkship (5 weeks)
  - Ortho Clerkship (3 weeks)
  - Psychiatry Clerkship (5 weeks)
  - Critical Care Clerkship (3 weeks)
  - Ortho/Neuros Clerkship (3 weeks)
  - Interventional Clerkship (3 weeks)

Year 4: 18 weeks Clinical Curriculum
- MUSC Step 2CK and 2CS Preparation (2 weeks)
- Elective rotations: General Surgery, Obstetrics/Gynecology, Surgery, OB/GYN, and Orthopedic surgery rotations (weeks 5-6)
- Elective rotations: Surgery, OB/GYN, and Orthopedic surgery rotations (weeks 7-8)
- Internship begins immediately November.

ACFOR Program Overview:
- Participating faculty for all students regardless of participation in or selection for ACFOR
- Close mentorship from the Orthopedic faculty for all students regardless of participation in or selection for ACFOR
- Counseling by Student Affairs and Careers in Medicine regarding implications of program
- Project Team:
  • Megan Grinnell
  • Angela Dempsey, MD, MPH
  • Donna Kern, MD

Future Planning:
- Anesthesia, ENT, Psychiatry, OB/GYN, Neurology, Pathology, Ophthalmology, Radiation Oncology, Anesthesiology, Radiology
- Exploring expansion to Family Medicine, Internal Medicine, Pediatrics, Surgery, Psychiatry, Obstetrics, Neurology, Pathology, Ophthalmology, Radiation Oncology, Anesthesiology, Radiology
