NYU Grossman School of Medicine is committed to supporting all students in meeting their degree requirements. Pregnant and parenting students face unique challenges during their medical education. Accommodations for these students will vary depending on the timing within the curriculum. Given the intersection between the requirements of the curriculum and the uncertainties of pregnancy and the timing of a child’s arrival, no one policy can address accommodations for every pregnant or parenting student. A student interested in accommodations or time off for pregnancy or parenting-related issues, including up to one-year Leave of Absence, is advised to meet with the Associate Dean for Student Affairs for guidance and to develop a plan for requesting accommodations and time off from medical school, if needed and/or desired.
