

Date \_\_\_\_\_

To \_\_\_\_\_,

I am applying for the Lerner Holistic Integrative Health Nursing Fellowship at NYU Langone Health. This fellowship is an immersive experience that aims to train a cohort of nurses to develop an understanding of holistic nursing and integrative health; learn, practice, and implement non-pharmacological holistic integrative health approaches for both staff and patient care, and research, develop, and implement an evidence-based holistic, integrative health project to impact the well-being of patients, staff, or caregivers within our organization.

I am requesting financial support to participate in this fellowship program. The fellowship will require 19-20 hours a month which can either be completed on my own time or with your support of dedicated time related to my current position. Participation in this program positions me as a pioneer and leader in whole health in our institution. The financial commitment is \$15,000 for the 172 hour fellowship over a 9- month period. I also require the support of an institutional mentor to guide in the implementation of my project within our institution.

Financial Support Options:

- **Institutional Scholarship:** Institution will cover the cost of the \$15,000 tuition.
- **Match Program:** Institution will match the participant's contribution up to \$5000.

I look forward to a discussion about the possibility of this investment in my career.

Thank you for your consideration,
