

Teaching with Technology: How to Engage Learners in Remote Teaching Sessions Using Zoom?

Tuesday, October 27, 2020
12:00 - 1:00PM

RSVP [here](#) by October 19, 2020
For questions, email educators@nyulangone.org

This workshop aims to help educators develop and implement engaging remote teaching experiences using a variety of education technologies. During the session, we will highlight faculty experiences and success stories; provide a hands-on session on how to conduct flipped classroom; and demonstrate small group discussion formats. Participants will also have an opportunity to share their own experiences and consult with other educators on existing or planned education projects.

Workshop Objectives:

- Describe foundational ideas of evidence-based educational practices including cognitive science and adult learning;
- Design engaging remote or hybrid teaching sessions using virtual classroom technologies;
- Analyze educational gaps in learning with survey tools;
- Get needs-based ad-hoc consultations.
