We would like to recognize and celebrate our researchers in the Division of General Internal Medicine and Clinical Innovation (DGIMCI).

Our mission in DGIMCI is to optimize care to patient populations through integrated clinical care and use of information and innovation in patient care supported by education and research. With our “all eyes (I’s) on the patient” philosophy, we will continue to utilize integration, information and innovation to improve patient care.

In the pages that follow, we invite you to review the multiple areas that our innovative researchers are working in and the healthcare issues that are being addressed.

We are pleased to present the 2015-2016 guide to DGIMCI research. We would like to thank all of our researchers and look forward to continued growth and collaboration in the NYU community and beyond.

Sincerely,

Cheryl Pegus, MD, MPH
Clinical Professor of Medicine and Population Health
Director, Division of General Internal Medicine and Clinical Innovation
Associate Chair for Clinical Innovation
NYU School of Medicine
2015-2016 GRANT REVENUE

CURRENT: $9,382,299

PENDING: $16,342,857

TOTAL FUNDING: 2015-2016 RESEARCH ACTIVITIES

CURRENT:
- Medical Education: $3,835,961
- VA: $3,745,914
- Patient Safety / Shared Decision Making: $992,459
- Obesity: $198,186
- Clinical Management / Innovation: $250,000
- Scholarly: $359,779

PENDING:
- Medical Education: $7,672,523
- VA: $1,100,000
- Patient Safety / Shared Decision Making: $2,382,231
- Obesity: $4,888,705
- Clinical Management / Innovation: $299,398
