For non-English speaking patients, the hospital will make every effort to provide you with an interpreter, free of charge, to ensure proper communication between you, your doctor and the hospital staff. If an interpreter is needed, our bi-lingual medical staff will assist you. If staff cannot assist you, the staff will contact New World Language Services to provide the interpretation via telephone. A sign language interpreter can also be arranged. Please ask the name or a patient representative for assistance.

For patients with concerns regarding alcoholism or other addictions, you can contact the Alcoholism Treatment Program located on the 2nd floor. The Bilingual Treatment Program is also available on the 2nd floor.

The Geriatric Psychiatry service is located on the 2nd floor of the New Ambulatory Building. The Adult Mental Health Clinic is located on the 2nd floor.
