Lupus Nephritis (Kidney Disease in Lupus)

A Study To Evaluate Ocrelizumab in Individuals with Kidney Disease Due to Lupus
NYUSM IRB H#07-766 [Principal Investigator: H. Michael Belmont]

A Study to Evaluate LJP 394 (Riquent) in People with Lupus who have a History of Kidney Disease
NYUSM IRB H#12114 [Principal Investigator: Jill P. Buyon]

A Study to Assess the Mycophenolate Mofetil (MMF), also known as CellCept, in Inducing Response and Maintaining Remission in People with Lupus Nephritis.
NYUSM IRB H#05-38 [Principal Investigator: Jill P. Buyon]

A Study to Evaluate the Safety and Efficacy of Atacicept in Individuals with Lupus Nephritis in Combination with Mycophenolate Mofetil (MMF) Therapy (CellCept)
NYUSM IRB H#07-560 [Principal Investigator: Jill P. Buyon]
