Program Structure

The MHPE program is a two-year, predominately distance-based program that consists of 11 units. A 3-week, campus-based, Introduction to Health Professions Education unit is held at NYUSOM at the start of Year 1, as well as a unit on Quantitative and Qualitative Research at the start of Year 2.

During the distance-learning units, meetings occur twice a month to help facilitate social cohesion within the group and to address any issues that the group may have as they work their way through the units.

Year 1:

- Unit 1*: Intro to Health Professions Education
- Unit 2: Learning & Cognition
- Unit 3: Curriculum & Instruction
- Unit 4: Assessment & Evaluation
- Unit 5: Organization & Leadership
- Unit 6: Academic Research Skills

Year 2:

- Unit 7*: Quantitative & Qualitative Research
- Unit 8: Learning Environments
- Unit 9: Advanced Assessments & Evaluation
- Unit 10: Academic Research Skills II
- Unit 11: Thesis Writing
- Unit 12: Advanced Quantitative & Qualitative Research (if Specialized Track is selected)

Accreditation

The Masters in Health Professions Education Program received initial accreditation in 2007 with Re-Accreditation in 2014 and 2017 by the Nederlands Vlaamse Accreditatie Organisatie (NVAO) - The Dutch Flemish Accreditation Organization. At Re-Accreditation in 2014, the MHPE Program was awarded the Distinctive Quality Feature “Internationalisation” by the NVAO.

About the MHPE Program at NYUSOM

The 2-year, MHPE program in the United States provides physicians and other health professionals with the capacity to implement and improve their educational programs and to conduct education research. Delivered predominantly via distance learning, this program provides a high-quality, tested product tailored to our specific needs.

The international perspectives and collaborations are unique, affording opportunities to learn from the best, develop deep connections with Maastricht University (MU) and NYUSOM faculty experts in medical education, medical education leadership and scholarship, and medical education research.

Graduates of this program are members of an international network of medical educators who continue their connectedness longitudinally via a Maastricht University Alumni technology hub.

Program Eligibility

Health professionals seeking careers in educational leadership (e.g. clerkship, program directors, deans) are eligible to enroll in the MHPE, receive mentoring, and use this to structure a productive medical education or medical education research agenda which prepares them to pursue their careers and advance institutional goals.

How to Apply

Applications will be available electronically in the Fall. Please contact MHPE@nyumc.org for application materials.

The following documents must be submitted with your electronic application:

- Curriculum Vitae
- Personal statement explaining why you want to participate in the MHPE program (1,000 word limit)
- Letter of Recommendation from your department chair stating their support for your career trajectory and time needed to complete the program.

NYUSOM MHPE inaugural cohort (2015-2017)

Program Eligibility (cont’d.)

Selection Process

Applicants selected for participation in the MHPE program will have their materials forwarded to Maastricht University for review by the Maastricht University Admissions Board. If accepted, additional application materials will be required by Maastricht University.

Final decision regarding acceptance into the MHPE program is decided by the Board of Admissions, Maastricht University.

Important Dates

NYUSOM MHPE Application Due: December 15, 2018
Selection of Applicants by NYUSOM: January 6, 2019
Applicants Acceptance by MU: Spring 2019
MHPE Start Date at NYUSOM: July 2019

Tuition & Fees

Tuition for the entire two-year program is €15,400 (~$18,000 USD) to be paid in two installments of €7,700 (~$9,000 USD) directly to Maastricht University (fee is subject to change).

An NYUSOM site fee of $10,000 USD for the first and the second year is due directly to NYUSOM (fees are subject to change).
