| **Monday 16th** | 12:00-1:00 PM | Translational Research in Progress (TRIP) Seminar                                               | Science building Ground Floor, Room G19 | Choreographing immunity at the cutaneous interface  
Shruti Naik, PhD  
Development of small molecule drugs for RNA targeting  
Alexander Serganov, PhD |
|             | 12:00-1:00 PM | Research Faculty Meeting                                                                        | Medical Science Building 588      | Presenter: Jun Wang                                                                 |
Immunity and Alzheimer's Disease  
Douglas R. Green, PhD- St. Jude Children's Research Hospital |
| **Tuesday 17th** | 12:00-1:00 PM | Resident Grand Rounds                                                                          | Medical Science Building 588      | Narrative medicine, culture change and homsesickness  
Annie Robinson |
|             | 2:00-3:00 PM  | Pathology Special Seminar                                                                       | Skirball 4th floor Seminar Room   | Harnessing Intrinsic Tumor Suppressor Pathways to Restore Anti-Tumor Immune Surveillance in Solid Tumors  
Marcus Ruscetti, PhD- Memorial Sloan Kettering Cancer Center |
|             | 5:00-6:00 PM  | Work-in-Progress (MOTI) Seminar                                                                 | MSB 588 Seminar Room, 5th floor   | Effects of the Gut Microbiota on Immune System Tone and Lung Cancer Immunotherapy  
Rabi Upadhyay, Mentor Dan Littman |
| **Wednesday 18th** | 3:00-4:00 PM  | Work-In-Progress (I&I) Seminar                                                                  | Science Building 1220, 12th Floor  | The Role of Type 2 Inflammation in Tissue Repair and Tumor Development  
Erica Ma, Mentor Dr. Bar-Sagi |
|             | 4:30-5:30 PM  | PCC Research Seminar Series                                                                     | Smilow 1st Floor Seminar Room     | Mechanisms of Sarcoma Response and Resistance to Radiation Therapy and Immunotherapy  
David G. Kirsch, MD, PhD- Duke University School of Medicine |
| **Thursday 19th** | 12:00-1:00 PM | Immunology Club Seminar                                                                          | Skirball 3rd floor Seminar Room   | Resident Memory T Cells and Immunosurveillance  
David Masopust, PhD, University of Minnesota |
| **Friday 20th**   | 12:00-1:00 PM | Translational Research Program Work in Progress (TRP WIP)                                       | Medical Science Building 588      | Grading System for Pulmonary Adenocarcinomas  
Andre Moreira, MD, PhD  
Using Cryo-EM to Solve High Resolution Protein Structures  
William J. Rice, PhD |
