We are located at

Bellevue Hospital Center
462 First Avenue at 28th Street
Ambulatory Care Building Module 2E
New York, NY 10016

Supported in part by the New York State Department of Health and New York City Health and Hospitals Corporation. Our physicians are board certified teaching faculty in the NYU School of Medicine. Affiliated with NYU Langone Medical Center.
The Bellevue/NYU Occupational & Environmental Medicine Clinic has been in operation since 1991. Our team includes physicians specializing in occupational medicine, internal medicine and pulmonary medicine, as well as an industrial hygienist.

What specific services are available?

- Medical clearance for respirator use, and respirator fit testing and training
- Medical evaluations following unprotected hazardous workplace exposures such as:
  - Asbestos
  - Lead
  - Formaldehyde
  - Mercury
  - Toxic solvents
  - Bloodborne pathogens
  - Loud sounds
- Industrial hygiene services:
  - Assistance with OSHA compliance
  - Sampling for toxic substances at the worksite
  - Assistance with preventing future work-related injuries
  - Advice on the right engineering controls for your workplace
  - Assistance with implementing an effective respiratory protection program
- Preplacement medical evaluations appropriate for specified job tasks
- New York State Workers’ Compensation evaluations

What can the clinic offer your employees who are sick or injured on the job?

- A confidential complete history and diagnostic evaluation to identify if the illnesses are work-related
- Appropriate medical treatment
- Medical and industrial hygiene-based recommendations for safe return to work
- Help with rehabilitation services
- Disability assessment
