Fourth Annual Health Disparities Symposium

Bridging Institutions and Communities to Achieve Health Equity

Wednesday, October 24, 2018
8:30 am - 5:00 pm

NYU Langone Health
550 First Avenue
Farkas Auditorium

Sponsored by:
NYU-H+H CTSI
NYU Department of Population Health
NYU School of Medicine Office of Diversity Affairs
Google
Welcome to the **Fourth Annual Health Disparities Symposium**. The Symposium is co-sponsored by the NYU-H+H Clinical and Translational Science Institute (NYU-H+H CTSI), the NYU Department of Population Health, and the NYU School of Medicine Office of Diversity Affairs.

The objectives of the Health Disparities Symposium are to:
- Create a space to discuss health disparities and present the work being done by community partners, faculty, staff, clinicians, and students at NYU, NYC Health + Hospitals, and beyond to address these disparities and to achieve health equity
- Facilitate connections, build networks, and foster interdisciplinary collaborations for health disparities research and activities among faculty, staff, students, clinicians, community partners, policymakers, healthcare systems, funders, industry, and the private sector
- Provide a forum for bidirectional education and dissemination between community and researchers, and a venue through which students can learn of opportunities for involvement

Thank you for joining us!

**Keynote Speaker**

**Justice & Therapy**

Jarrett M. Adams, Esq.

Mr. Adams recently launched the Law Offices of Jarrett Adams, PLLC, a firm specializing in criminal defense and civil rights matters. Prior to starting his firm, Mr. Adams was a Post-Conviction Litigation Fellow with the Innocence Project, a non-profit legal services firm which focuses on exonerating the wrongfully convicted through DNA testing. Before practicing with the Innocence Project, Mr. Adams found himself sentenced to a term of 28 years in prison and reaching out to the Innocence Project. After serving close to 10 years in prison, Mr. Adams’ conviction was reversed after the Innocence Project produced an alibi witness whose statement was withheld by the police. The state dismissed all charges against Mr. Adams in February of 2007. Upon release, Mr. Adams obtained his Associates degree (2010), Bachelors degree (2012), graduated from Loyola Law School in Chicago (2015), clerked for the same Seventh Circuit that overturned his conviction and is now practicing law and residing in New York.
Welcome Address
Joseph Ravenell, MD
Dr. Ravenell is NYU School of Medicine’s (NYUSOM) Associate Dean for Diversity Affairs and Inclusion, and the Director of Diversity in Research for the NYUSOM Cancer Institute. Dr. Ravenell is the Principal Investigator for a project to test community-based strategies to improve blood pressure control and colon cancer screening in Black churches in Harlem, a recently completed NIH-funded project that examines barbershop-based interventions to address colorectal cancer in older Black men. The project has led to a community-based research network of over 200 community-based sites including churches, barbershops, mosques and soup kitchens throughout New York City that will examine a barbershop-based video intervention to improve organ donation registration in minority populations. As a result of his extensive experience with community-based approaches to cancer prevention in minority populations, he was appointed the founding Director of the NYU Center for the Elimination of Cancer Disparities.

Mass Shootings and Why They Matter
Paul M. Reeping, MPH
Paul Reeping is a second year Epidemiology PhD student at Columbia Mailman School of Public Health. His primary research interests are in the field of gun violence prevention. Before coming to Columbia, he got his masters at the Harvard T.H. Chan School of Public Health in infectious disease epidemiology, where he was interested in how gun violence could be studied as a contagion. He is also interested in teaching and served as a 10th grade environmental science teacher on the South Side of Chicago for three years.

The NYC Health Justice Network: Connecting Clinical and Community Partners to Serve Justice-Involved People and Their Families
Ashwin Vasan, MD, MSc, PhD
Dr. Vasan is a primary care physician and public health expert with more than 15 years of experience working to improve health and social welfare for vulnerable populations in the world’s most challenging settings. In late 2016, he was appointed as founding Executive Director of the Health Access Equity Unit at the NYC Department of Health & Mental Hygiene, a first of its kind public sector health program that leverages the Department’s historical assets to improve community-based health and human services for the most vulnerable populations in the City. This role builds off of Dr. Vasan’s experience working with Partners In Health in Rwanda, Lesotho, and Boston, and the WHO in Uganda and Geneva. At The Mailman School of Public Health, Dr. Vasan leads a graduate seminar in Implementation Science and Global Health, while continuing to see patients and mentor trainees as a primary care internist in the Division of General Medicine at Columbia University Medical Center/New York-Presbyterian Hospital. Previously, Dr. Vasan was the Deputy Director of ARCHeS, a $17M Doris Duke Charitable Foundation-funded program of health systems development and research in Ghana and Tanzania. Dr. Vasan also holds non-clinical appointments as an Associate Physician in the Division of Global Health Equity at the Brigham & Women’s Hospital/Harvard Medical School.

Rob DeLeon
Rob DeLeon is the Associate Vice President of Programs at The Fortune Society. Fortune, serves approximately 7 thousand men and women annually who are either being released from serving jail or prison terms or as an alternative to incarceration for those with pending court matters facing jail or prison sentences. Prior to his work at Fortune, Mr. DeLeon worked for over 13 years as an executive team member at CASES, the Center for Alternative Sentencing and Employment Services. At CASES, as Director of youth Programs he was responsible for developing, implementing and overseeing multiple programs for justice involved youth, as well as government and community outreach. Mr. DeLeon is formerly incarcerated, having spent 10 years in prison from the age of 17 where he was arrested and charged as an adult. He has been involved as a speaker in a number of justice reform initiatives including Ban the Box and Raise the Age.
Addressing the Primary Care & Social Needs of Homeless and Housing-Unstable New Yorkers

Kalpana Bhandarkar, MPH, MBA

Kalpana Bhandarkar serves as Lead for Social Determinants of Health in the Office of Population Health at NYC Health + Hospitals, the nation’s largest public hospital system serving more than 1 million patients annually. She and her team work to standardize and scale the system’s approach to and effectiveness at addressing its patients’ unmet social needs. Prior to joining NYC H+H in 2016, Kalpana served as Chief of Staff to two CEOs at Maimonides Medical Center, a safety net hospital in Brooklyn. She has also held roles at Manatt Health, an interdisciplinary health care consulting firm, Mount Sinai Adolescent Health Center, and the Children’s Defense Fund. Kalpana earned a Masters in Public Health from the Johns Hopkins Bloomberg School of Public Health, a Masters in Business Administration from the Johns Hopkins Carey School of Business, and a Bachelors of Arts from Tufts University.

Yinan Lan, MD

Dr. Lan is a Board-certified Internal Medicine physician and a Clinical Assistant Professor of Medicine at the NYU School of Medicine. She currently practices primary care and teaches doctors-in-training and medical students at NYC Health + Hospitals / Bellevue. She also directs the Bellevue Primary Care Safety Net program, an intensive primary care program for people with unstable housing and complex medical issues. She is interested in tailoring primary care to fit people with some of the worst health disparity issues. Yinan received her Medical Degree from Boston University School of Medicine and completed her residency in Internal Medicine at Tufts Medical Center.

Communities Holding Institutions Accountable for Advancing Health Equity: Best Practices In Partnerships

Marilyn A. Fraser, MD

Dr. Marilyn Fraser is the Chief Executive Officer of the Arthur Ashe Institute for Urban Health, a graduate of the Spartan Health Sciences University School of Medicine in St. Lucia, West Indies, Research Associate Professor in the Department of Medicine at the SUNY Downstate Medical Center, and the co-Director of the Brooklyn Health Disparities Center. In her previous capacities as the Institute’s Deputy Director and the Associate Director for Research & Training, she was primarily responsible for overseeing the Institute’s community outreach and research programs. Dr. Fraser was also instrumental in developing the Institute’s award winning programs into behavioral health intervention models. Her community outreach and research portfolio has included the Institute’s ACCESS project to increase access to health and social services for formerly incarcerated individuals in Brooklyn, New York, as well as several Federally funded grants to develop curricula to train hair stylists and barbers to educate their clients about breast, prostate and colorectal cancer, cardiovascular disease (CVD) and HIV/AIDS risk reduction.

Kathleen Hopkins

As Senior Vice President of Community Programs and Family Health Centers for NYU Langone Hospital – Brooklyn, Ms. Hopkins oversees a broad continuum of programs in early childhood education, school based health, adult education, workforce development, and family support. Ms. Hopkins has deep roots in Sunset Park, Brooklyn, and has spent over 20 years developing supportive service programs for the families and children of the ethnically diverse communities of Southwest and Central Brooklyn. Kathy’s past experience is within higher education, social service organizations, and grassroots community development. Ms. Hopkins has an educational background in both social work and education. She was recently appointed to the New York City Mayor’s Advisory Board for Full Community Schools.
Murad Awawdeh
Murad Awawdeh is the NYIC Vice President of Advocacy at the New York Immigration Coalition, where he leads the Coalition’s Community, Political, Civic, and Member Engagement departments. Formerly, Murad was the NYIC’s Director of Political Engagement where he led the organization’s Federal, State, and Local legislative and policy campaigns to push for a more inclusive New York. Through his work, Murad has been able to secure over $250 million in funding for low-income, immigrant, and communities of color. He has been featured in VICE, the Baffler, NY1, NY Daily News, Daily Beast, and Huffington Post. He was honored with the Brooklyn Do Gooder Award, Congressional Recognition, NYS State Senate and Assembly Achievement and Service Awards.

Jeanine Wong, MA, LMFT
Jeanine Wong is the Director of the Caregiver Services Program at Hamilton-Madison House in New York City. Jeanine received her Master of Arts in Marriage and Family Therapy from Argosy University in Oahu, Hawaii. Her clinical experiences include: Behavioral Health Specialist for the Hawaii Department of Education; a mental health group counselor at the Hawaii Kai Retirement Home and a counselor at Catholic Charities in Hawaii in their sex offender program. Jeanine is currently a licensed Marriage and Family therapist in New York and Hawaii.

Meghan Shineman, MPA
Meghan Shineman is a researcher, writer, and social advocate with more than 12 years of experience in both the public and non-profit sectors across the healthcare and workforce industries, with a particular focus on aging and long term care. As the Healthcare Planning Specialist for the New York City Department for the Aging (DFTA), she coordinates and assists DFTA’s Planning Division with its overall effort to better align the aging and healthcare sectors. Prior to joining DFTA, Ms. Shineman previously worked as a policy analyst for the United Hospital Fund and PHI (formerly Paraprofessional Healthcare Institute), both located in New York City. She earned her Master of Public Administration, with a focus in Health Policy, from the NYU Wagner Graduate School of Public Service and her bachelor’s degrees in Sociology and Communications from Boston College.

Sherry Baron, MD, MPH
Dr. Baron is a professor at the Barry Commoner Center for Health and the Environment at Queens College and an affiliate professor at the CUNY Graduate School of Public Health and Health Policy. She was principal investigator along with Nadia Islam of NYU of the NYU-CUNY Prevention Research Center’s collaborating center of the Workplace Health Research Network. She is an occupational physician and spent 25 years as a researcher at the CDC’s National Institute for Occupational Safety and Health before coming to CUNY in 2014 where she led NIOSH’s Health Equity program. Her research has focused on developing community-based participatory research projects to reduce work-related exposures for low income and immigrant worker populations. For her NYC-based research she has collaborated closely with Make the Road New York. The collaboration began with a project to support Latino construction laborers who assisted in the Hurricane Sandy clean up and reconstruction efforts. She is currently leading an NIH-funded 5-year research project with Make the Road NY, the Icahn School of Medicine at Mt. Sinai and others aimed at reducing domestic cleaners’ exposures to chemicals contained in common consumer cleaning products.

Jamie San Andres
Jamie San Andres coordinates the “Safe & Just Cleaning Research & Action” project. This project is a community-based participatory action research (CBPAR) project in collaboration with the Barry Commoner Center for Health & the Environment at Queens College, Make the Road NY, and the Icahn School of Medicine at Mt. Sinai. Jamie has a master’s degree in Sociology from Northeastern University. At Northeastern, she was a member and research assistant at the Social Science Environmental Health Research Institute (SSEHRI). Previously, she worked as a union representative for homecare workers at SEIU-United Healthcare Workers West. She also worked as a community organizer with farmworkers at Californians for Pesticide Reform and Communities for a New California.
Controversies in Population Health: What Will it Take to Mitigate the Opioid Crisis?

Joshua Lee, MD, MSc

Joshua D. Lee is an Associate Professor of Population Health and Medicine at NYU Langone Health. He is a clinician researcher focused on addiction pharmacotherapies, and is Director of the NYU ABAM Fellowship in Addiction Medicine. His research models the use of addiction pharmacotherapies in primary care and criminal justice populations. He has conducted multiple NIH and other clinical trials examining the use of extended-release naltrexone and buprenorphine opioid treatments in outpatient criminal justice-involved adults, in soon-to-be released jail inmates, and in community detox settings. Research on extended-release naltrexone for alcohol treatment has focused on primary care medical management. Dr. Lee graduated Princeton University (AB), the University of Tennessee School of Medicine (MD), and Weill Cornell Graduate School of Medical Sciences (MSc). He completed a residency and chief residency in Primary Care Internal Medicine at NYU/Bellevue Hospital Center and is certified in Addiction Medicine. He is currently an attending physician at Bellevue Hospital and in the New York City jails.

Magdalena Cerdá, DrPH

Magdalena Cerdá is the Director of the Center for Opioid Epidemiology and Policy and an Associate Professor in the Department of Population Health at New York University School of Medicine. Dr. Cerdá obtained her doctorate in Social Epidemiology from the Harvard School of Public Health and completed a postdoctoral fellowship through the Robert Wood Johnson Health and Society Scholars Program. In her research, Dr. Cerdá integrates approaches from social and psychiatric epidemiology to examine how social contexts shape violent behavior, substance use and common forms of mental illness. Her research focuses primarily on two areas: (1) the causes, consequences, and prevention of violence; and (2) the social and policy determinants of substance use from childhood to adulthood.

Speakers

Chinazo Cunningham, MD, MS

Since 1998, Chinazo Cunningham, MD, MS has been providing care, developing programs, and conducting research focused on marginalized populations including people who use drugs with or at-risk for HIV infection. In addition to her own research, she has mentored scores of trainees to conduct clinical research, resulting in numerous NIH-funded grants led by her trainees. She has served on numerous national advisory committees, including serving as the Chair of NY State Department of Health AIDS Institute’s Substance Abuse Committee; a member of the Opioid Guideline Workgroup of the CDC’s Guideline for Prescribing Opioids for Chronic Pain, 2016; a member of the NIH Office of AIDS Research’s Racial and Ethnic Populations Committee; and a member and Chair of the NIH’s Behavioral and Social Consequences of HIV/AIDS Study Section. At Einstein, she serves as Director of Diversity Affairs within the Department of Medicine and as Associate Chief of the Division of General Internal Medicine.

Don C. Des Jarlais, PhD

For over 30 years Don Des Jarlais has been conducting HIV/AIDS research among persons who inject drugs (PWID). He is PI of the “Risk Factors” study (R01DA003574), which was instrumental in tracking the HIV/AIDS epidemic in New York City. This study has been funded by the National Institute on Drug Abuse since 1983 and is the longest continuously funded study on HIV/AIDS in persons who use drugs. He has conducted HIV/AIDS research nationally (Seattle, CDC CIDUS studies, national syringe exchange survey) and internationally (in over 20 different countries). He has served as a consultant on these issues to the World Health Organization, the National Institutes of Health and the U.S. Centers for Disease Control and Prevention. Dr. Des Jarlais is the Associate Director of the Infectious Disease Epidemiology and Theory Core for the National Institute on Drug Use-funded Center for Drug Use and HIV/HCV Research.
Sally Friedman, JD
Sally Friedman is the Vice President of Legal Advocacy at the Legal Action Center, a non-profit law and policy organization that fights discrimination against individuals with criminal justice histories, substance use disorders, and HIV/AIDS. Ms. Friedman plays a key role in the Center’s strategic planning, fundraising, and program development and directs its Legal Department, which engages in impact litigation, direct legal services, technical assistance, and training. Since joining the Center in 1993, Ms. Friedman has litigated numerous precedent-setting cases, including Beckett v. Aetna, a national class action lawsuit challenging Aetna’s violation of over 13,000 members’ HIV privacy rights, and Innovative Health Systems v. City of White Plains, a federal lawsuit establishing that the Americans with Disabilities Act prohibits using zoning laws to exclude facilities serving people with disabilities. Ms. Friedman has worked extensively to reduce barriers to medication-assisted treatment for opioid use disorder and is considered a national expert on the topic. She authored the 2011 report, Legality of Denying Access to Medication Assisted Treatment in the Criminal Justice System, co-authored the 2015 report, Medication-Assisted Treatment in Drug Courts: Recommended Strategies, and authored Defense Lawyers and the Opioid Epidemic: Advocating for Addiction Medication. Ms. Friedman has conducted dozens of trainings nationwide and written extensively on anti-discrimination and privacy laws. Prior to joining the Legal Action Center, Ms. Friedman worked as a litigation associate at the New York law firm of Kramer, Levin, Naftalis, and Frankel.

Colleen Vessell, MD, MPH
Colleen Vessell currently serves as the Site Medical Director of the Rose M. Singer Center, the women’s jail on Rikers Island. In addition to practicing primary care, she oversees the Medication-Assisted Treatment program for women experiencing addiction. Dr. Vessell is a graduate of Harvard Medical School and the Harvard T.H. Chan School of Public Health. She trained in Internal Medicine/Primary Care at NYU.

Chau Trinh-Shevrin, DrPH
Dr. Trinh-Shevrin is an Associate Professor in the Departments of Population Health (DPH) and Medicine at NYUSOM. Within DPH, she serves as Vice Chair for Research and heads the Section for Health Equity. For more than 20 years, Dr. Trinh-Shevrin has been involved in health promotion, disease prevention, and health disparities research programs utilizing community-based participatory research principles (CBPR) for Asian American, Native Hawaiian, and Pacific Islander and other underserved populations. Currently, she is PI of an NIH NIMHD Specialized Center of Excellence - the NYU Center for the Study of Asian American Health - and a CDC-sponsored Prevention Research Center that is a partnership between the NYU School of Medicine and the CUNY School of Public Health. Dr. Trinh-Shevrin also serves as Associate Director of Community Outreach and Engagement for the Perlmutter Cancer Center and co-director of the Community Engagement and Population Health Research Core and the Integrating Special Populations Unit for the NYU-Health + Hospitals (H+H) Clinical and Translational Science Institute (CTSI). In these institutional roles, she is involved in fostering community-engaged research collaborations and developing research training programs for community and academic partners aimed to strengthen equitable community-campus partnerships. Dr. Trinh-Shevrin is a social epidemiologist with a doctorate in public health from Columbia University and a master in health policy and management at the State University of New York at Albany.

Azizi Seixas, PhD, MA, MPsy
Dr. Azizi Seixas is an Assistant Professor at NYU Langone Health, in the Department of Population Health and Department of Psychiatry. Dr. Seixas’ research broadly focuses on three areas: 1) multilevel determinants of sleep, brain and mental health, aging, and cardiovascular disease disparities, 2) long-term health consequences of cardiovascular disease (CVD) and mental health disparities, and 3) developing adaptive, group-tailored, and personalized behavior modification interventions, with the use of machine learning analytical tools, to improve health and well-being.
1. Muslim Americans Reaching for Health and Building Alliances (MARHABA); Association between factors relating to health care and breast and cervical cancer knowledge and screening rates among Muslim women in NYC
Areeg Naeem, Shilpa Patel, Gulnahar Alam, Laura Wyatt, Nassira Bougrab, Nadia Islam

2. Correlates of Police Harassment due to Race and/or Sexual Orientation and Recent Drug Use among Black Men who have Sex with Men in the US
Simon Sandh, Joy D. Scheidell, Typhanye V. Dyer, Russell Brewer, Rodman Turpin, Kenneth Mayer, Maria R. Khan

3. Expansion of a Proven Emergency Department-Based Patient Navigator Program
Erina Greca, Monica Milagros Moreyra

Matthew Chin, Sherry Shao Fen Huang, Naumi Feldman, Xing Li, Chun Hui Dong, Mei Yee Lau, Pauline Sikat, Angela Chan

5. Prevention of School Readiness Disparities through a Population-Scalable, Tiered, Healthcare-based Model for Promotion of Parenting
Alan Mendelsohn, Daniel Shaw, Caitlin Canfield, Elizabeth Miller, Anne Gill, Pamela Morris

6. Social and Demographic Characteristics of Access to and Trust in Cancer Information among Brooklyn Residents
Mariene Camacho-Rivera, Michael Obadina

7. Targeting Obesity and Hypertension by Using a Shared Decision-Making Model to Improve Sleep Quality in Minority, High-Risk Patients
Balavenkatesh Kanna, Humberto Mendoza, Zerremi Cagaanan, Masood A Shariff, Zeus Castro, Maria Espejo

8. Racial Disparities in Postoperative Pain Reporting and Satisfaction with Pain Management
Samir Kendale, Andrew D Rosenberg, Germaine Cuff, Joan Kelly, Virginia Tong

9. Lead Poisoning Prevention in New York City’s South Asian Community
Kolapo Alex-Oni, Paromita Hore, Sarah Goldberg, Slavenka Sedlar

10. Targeted outreach increases HIV testing in MSM and trans women of color
Kathryn Rineipp, Michele Simo, Iise Calixto, Santa Fernandez, Finn Schubert

11. The Healthy Children, Healthy Families Evaluation
Andrea Davila Saad, Margaret Paul, Emily Oppenheimer, Yolanda Benites, Charmaine Ruddock, Stephanie Albert

12. Health Disparities Among Individuals with SMI in an Integrated Care Program
Ria Kalyan, Jon Marrelli

13. Baseline Characteristic of Participants in the Tailored Approach to Sleep Health Education (TASHE) to Improve Awareness about OSA
Rebecca Robbins, Kevin Chery, Rafey Iqbal, Natasha Williams, Azizi Seixas, Girardin Jean-Louis

14. Understanding the Uninsured at NYC Health + Hospitals: A Population Approach
Spriha Gogia, Nicole Hosseinipour, Remle Newton-Dame, Jesse Singer, Dave Chokshi

15. Disparities in mortality and pre-death patterns of HIV care among HIV-positive New Yorkers who did or did not receive Ryan White Part A services.
Kelsey Kepler, Mary Irvine, Katherine Penrose, Jacinthe Thomas, Rebekkah Robbins, Sarah Braunstein

16. Differences in trust of cancer information from various sources among Hispanic adults in the United States: Analysis of the 2014 HINTS
Jason Morency, Marlene Camacho, and Rose Calixte

17. A Qualitative Study of Cultural Barriers and Thoughts Associated with Breast Cancer Screening of Older Chinese Women
Sidrat Siddiqi

18. Addressing the burden of stomach cancer disparities in low-income New York City Chinese American immigrants
Simona Kwon, Yi-Ling Tan, Janet Pan, Qiuqu Zhao, Renee Williams, Sara Chokshi, Devin Mann, Rachelle Ocampo, Benyma Hailu, Chau Trinh-Shevrin

19. Medical needs of patients in the EMPOWER Clinic for Survivors of Sex Trafficking and Sexual Violence
Brian Goddard, Savannah Pearson Ayala, Sonya Chemouni Bach, Emily Rabinowitz, Veronica Ades
20. Referral patterns for minority women at high risk of developing breast and ovarian cancer
Emma Trawick, Karen Carapetyan, Maria Alvear, John Curtin, Franco Muggia, Julia Smith

21. Socio-demographic correlates of physical inactivity among stroke survivors
Christina Wysota, Nina S. Parikh, Benjamin Spoer, Noa Appleton, and Bernadette Boden-Albala

22. Ethical Reasoning as a Tool in Rehabilitation with Vulnerable Populations
Judy Wilson

23. Community Health Assessment of Muslim Women at an East Harlem Islamic Center
Anitha Srinivasan, Farhana Begum, Brittany Dodson, Swetha Sankar

24. Measuring Prevalence and Heterogeneity of Blood Pressure Control between Black and White Men in Federally-Qualified Health Centers
Thomas Gepts, Nina Siman, Charles Cleland, Allison Cuthel, Carolyn Berry, Donna Shelley

25. Predictors of Quality of Life in Post-9/11 Veterans
Rebecca Lubin, Kristin Szuhany, Naomi Simon, MD, MSc, Charles Marmar

26. Chinese American Pain Experience Project (CAPE): Preliminary results from an exploratory analysis on pain perception and management among Chinese American postoperative patients
Simona Kwon, Jazmine Wong, Janet Pan, Andrew Rosenberg, Joan Kelly, Virginia Tong, Daniel Chong, Germaine Cuff, Qian Chen, Chau Trinh-Shevrin

27. Recruitment Characteristics and Outcomes for Project IMPACT, a Community Health Worker-led Hypertension Management Intervention for South Asian Patients at NYC Primary Care Practices
Sadia Mohaimin, Jennifer Zanowiak, Laura Wyatt, Radhika Gore, Nadia Islam

Tiffany Cheng, Simona Kwon, Stephen Wall
