

**NYU–UG RESEARCH INTEGRITY TRAINING PROGRAM
FOGARTY INTERNATIONAL CENTER – NIH
CALL FOR APPLICATIONS**

We are pleased to announce that the **New York University–University of Ghana Research Integrity Training Program** (1-R25-TW-010886-01) is now accepting applications for eight open positions in the inaugural cohort of its Fellowship Program in Research Integrity. The Fellowship will begin in Summer or Fall 2019.

PROGRAM OVERVIEW:

The **NYU–UG Research Integrity Training Program** is a collaborative endeavor between NYU and UG, and is funded by the Fogarty International Center, U.S. National Institutes of Health. The Principal Investigator is Arthur L. Caplan, PhD (Division of Medical Ethics, NYU School of Medicine). The Co-Principal Investigators are Olugbenga Ogedegbe, MD (Department of Population Health, NYU School of Medicine; NYU College of Global Public Health) and Amos Laar, PhD, MPH, MA (UG School of Public Health). The Program is designed to develop expertise related to research ethics, research integrity, and research governance in Ghana. It consists of the development and implementation of a Fellowship Program in Research Integrity that will be offered to twenty-four researchers in cohorts of eight over the course of three years, and which will provide the foundation for establishing a sustainable Master’s Program in Bioethics at the UG School of Public Health.

The **Fellowship Program in Research Integrity** will build research ethics and integrity capacity among a select group of Ghanaian researchers who have successfully completed doctoral-level training in medicine, professional degrees in law, master’s or doctoral degrees public health, nursing or the social sciences, or who are currently enrolled in master’s programs in these areas. The training will build on Fellows’ previous training in research methods and experience conducting research, so that they may expand their understanding of the importance and relevance of research integrity in relation to their work. Skills developed during the Fellowship will enable graduates to play leadership roles in multi-national research teams and research governance.

The Fellowship’s curriculum, developed collaboratively by experts in research ethics at NYU and UG, comprises the following year-long sequence of courses:

- Workshop on the Responsible Conduct of Research (RCR);
- Intensive Course #1: History and Philosophical Foundations of Research Ethics;
- Intensive Course #2: Research Integrity; and
- Intensive Course #3: Developing a Research Paper.

All Fellows who successfully complete the Fellowship will receive a Certificate. Exceptional scholars who complete the Fellowship will have the opportunity to pursue a Master’s Degree in Bioethics from the NYU Center for Bioethics, under the direction of S. Matthew Liao, PhD. This opportunity will be available to two Fellows from each cohort (six total).

ELIGIBILITY CRITERIA:

Applicants who meet the criteria below are strongly encouraged to apply.

1. *Prerequisite Education.* Applicants must, by fellowship start date, be one of the following:
 - a. graduates of the Cardiovascular Research Training (CaRT) Institute;
 - b. graduates of master's or doctoral programs in Public Health, Nursing, or within the Social Sciences, or students currently enrolled in such programs;
 - c. Physicians in Residency training/clinicians engaged in health sciences research;
 - d. graduates of law schools.
2. *Research Experience.* Applicants must demonstrate a track record of excellence and potential to exhibit leadership in research ethics.
3. *Attendance at Selection Workshop.* In April or May 2019, the Program will invite selected applicants to attend a Selection Workshop at the UG School of Public Health.

TO APPLY:

The submission **deadline** for application is **February 15th, 2019**. Applications should be submitted online at <https://goo.gl/NcbSte>. Complete applications must include the following materials:

1. *Application Form.* Available at <https://goo.gl/NcbSte>.
2. *Letters of Recommendation.* Two (2) letters of recommendation from faculty who have first-hand knowledge of the applicant's potential for conducting independent research.
3. *Personal Statement.* A Personal Statement indicating the applicant's interests in research ethics and research integrity.
4. *Commitment Statement.* A signed statement indicating that the applicant will attend all required mentorship and program evaluation activities, including the Ghana Research Ethics Network (GREN) conference in Academic Year 2022–23.
5. *Letter of Institutional Support:* A letter from the department chair, or equivalent should accompany each application. The letter must state the following: (a) that the trainee will have access to necessary resources in their institution that will enable them to conduct their research projects; (b) that the trainee will commit at least 30% effort to attend the Intensive Research Courses and all mentoring activities; (c) that the trainee will be granted time off to attend all three Intensive Research Courses.

For questions about the application process, please contact the Program Coordinator:

Mr. Kyle Ferguson, MPhil
