Thank you so much for agreeing to speak with me today! I am working on an evaluation to determine how water jets have influenced NYC public schools. Your input will help us as we work with other schools to increase access to water for students. As a reminder, none of the information you share with us today will be linked back to you or your school. Whenever we report on the outcome of this evaluation, we will de-identify all the information we share.

1. Can you confirm with me your role at the school?
2. What has been your experience with water jets?
3. Is someone at your school required to work on the water jets on a daily basis?
   - Yes
   - No [If yes, ask A & B]
   a. Who is it?
      - Cafeteria Manager
      - Kitchen Staff
      - Other: ________________
   b. How much time does this person spend on them each day?
      - Less than 5 minutes
      - 5 – 15 minutes
      - 15 – 30 minutes
      - 30 – 45 minutes
      - 45 – 60 minutes
      - 60+ minutes
      - Other: ________________
   c. What do they do?
4. When are the water jets turned on?
   - During Breakfast
   - During Lunch
   - In Between Classes
   - After School
   - Other time(s): ________________________________
5. How are the water jets filled? ________________________________
6. Does someone from the school staff serve children from the water jets, or do students serve themselves?
   - Staff Serve Water
   - Students Serve Themselves
7. Have you had any problems with water jets breaking?
   - Yes
   - No [If yes, ask A]
   a. What happened? (PROBE: Were they fixed in a timely manner? Who fixed them?)
   ________________________________
8. Aside from the water jets, are there any sources of water available to students in the school cafeteria?  
☐ Yes ☐ No [If yes, ask A]
   a. What are they? __________________________________________

9. Do you see students drinking water during lunch?  
☐ Yes ☐ No [IF YES, ASK QUESTIONS A & B]
   a. What percent of students would you estimate drink water during lunch in the cafeteria?  
☐ Less than 25% ☐ 25 – 50% ☐ 51 - 75% ☐ 76 – 100%
   b. Where do they get it? (select all that apply)
      ☐ Water Fountain
      ☐ Bottled water from home
      ☐ Bottled water from the vending machine
      ☐ Water Jets
      ☐ Other: __________________________

10. Are students encouraged to use water jets?  
☐ Yes ☐ No
   a. How?  
__________________________________________
   __________________________________________

11. What do you think the impact of the water jets has been on students?  
__________________________________________
   __________________________________________

12. Do you think students drink less water, more water, or the same amount of water since the jets were installed in the cafeteria?  
☐ A Lot Less ☐ Somewhat Less ☐ The Same ☐ Somewhat More ☐ A Lot More

13. Do you think students drink less milk, more milk, or the same amount of milk since the water jets were installed in the cafeteria?  
☐ A Lot Less ☐ Somewhat Less ☐ The Same ☐ Somewhat More ☐ A Lot More

14. Would you recommend water jets to other schools?  
☐ Yes ☐ No
   a. Why? Do you have any other thoughts, comments or concerns that you’d like to share?  
__________________________________________
   __________________________________________

15. How safe is it to drink water that comes from a faucet or tap in New York City?  
☐ Not safe at all ☐ Somewhat safe ☐ Very safe ☐ Completely safe

Thank you so much for your time!
