NYULMC High Throughput Biology Laboratory Acknowledgment and Authorship Policies

Dear HTB Laboratory User:

According to the NYULMC policy, it is mandatory that you acknowledge the HTB Laboratory at the New York University Langone Medical Center in all publications and grant applications if you are using equipment, services, expertise and data generated at the Laboratory. Authorship should be considered when Laboratory members are involved in significantly developing the experimental design, or contribute to the publication content by advancing it to publishable form. Please send us the PDF file of your publications, and let us know if the grant is awarded. This will enable us to demonstrate our involvement in the research of a large number of laboratories at the university, aiding the procurement of future equipment for the Laboratory.

The Laura and Isaac Perlmutter Cancer Center Support Grant, Helen L. and Martin S. Kimmel Center for Stem Cell Biology, and NYSTEM partially fund this Laboratory. Please acknowledge the Support Grants, “NIH/NCI P30CA16087” and NYSTEM Contract C026719, on any publication resulting from the use of this Laboratory. Additionally, all publications resulting from the use of this facility are required to abide by the NIH Public Access Policy and be deposited into *PubMed Central*.

Our Laboratory remains committed to do our best to meet your service expectations. If you have any questions, please do not hesitate to contact me.

Sincerely,

Chi Yun, Ph. D.
HTB Laboratory Director
Assistant Professor
