• NYU Langone Science Building can be accessed via the first or ground floors. Valid, activated NYU Langone ID is required for access to elevators, floor and Cytometry & Cell Sorting Lab.

• Biological material is not to be transported through the Science Building lobby or onto the main elevators at any time. The service elevators MUST be used whenever transporting samples to and from the lab.
  o From Smilow, Skirball, or MSB: take 1st floor service elevator (red).
  o From outside or the Alexandria campus: enter through the building’s 30th street entrance, immediately make a right and take ground floor service elevator (blue).
  o Once on the 4th floor, follow the directions on the map below to room 449.
