World-Class Urologic Care

NYU Langone’s Robotic Surgery Center has one of the world’s leading programs in urologic oncology and urinary reconstructive surgery. Our surgeons are internationally recognized for pioneering the use of robotic technology. By combining unparalleled expertise with intelligent technology, our urologists have expanded the scope of minimally invasive treatment for the most complex diseases of the kidneys and urinary tract.

Procedures We Perform

**Benign**
- Bladder Diverticulectomy
- Hysterectomy for Prolapse
- Pyeloplasty
- Renal Cyst Decortication
- Sacrocolpopexy
- Sacrohysteropexy
- Simple Prostatectomy for BPH
- Ureteral Reconstruction
- Ureteral Reimplantation
- Ureterolysis
- Ureteroureterostomy

**Malignant**
- Nephroureterectomy for TCC
- Partial and Radical Adrenalectomy
- Partial and Radical Cystectomy with Creation of Conduit, Reservoir, or Neobladder
- Partial and Radical Nephrectomy
- Prostatectomy
- Ureterectomy with Reimplant for TCC

NYU Langone is among the first medical centers in the country to perform robot-assisted partial nephrectomies and urinary reconstructions. We have completed more of these procedures than any other hospital in the New York metropolitan area.

Michael D. Stifelman, MD, is a global leader in robotic urinary tract reconstruction and kidney-sparing cancer surgery. Dr. Stifelman frequently lectures and demonstrates robotic techniques to surgeons from around the world.

Robotic Urologic Surgery

Our Team

Benjamin M. Brucker, MD
Assistant Professor of Urology

Michael D. Stifelman, MD
Associate Professor of Urology; Chief of Urologic Surgery at Tisch Hospital; Director of the Robotic Surgery Center

William C. Huang, MD
Assistant Professor of Urology

Samir Taneja, MD
The James M. Neissa and Janet Riha Neissa Professor of Urologic Oncology; Director of Urologic Oncology; Co-Director of the Joel E. Smilow Comprehensive Prostate Cancer Center

Nirit Rosenblum, MD
Assistant Professor of Urology
