The NYUSoM Student Guide To (Almost) Everything in NYC

By the NYUSoM Class of 2017

NYU School of Medicine

Orientation Class of 2018
TIPS FOR NYU MEDICAL STUDENTS:

• With your NYU undergraduate ID, you have access to many resources around the city
  • NYU Route E shuttle can take you down to the undergraduate campus at Washington Square (a
    short walk from SoHo), Trader Joe’s, and the Palladium athletic facility
  • Free admission to the MoMA (Museum of Modern Art)
  • Others can be found here: http://www.nyu.edu/life/student-life/getting-involved/museum-gate-
    way.html
• Utilize the Ticket Xpress Box Office to get great deals on movie tickets, broadway shows, etc.
  • Volunteering for the admissions office is an easy and great way to score AMC gold passes
• The laundry system only accepts bills of $5 and greater, so be sure to carry some cash when starting up or
  reloading your card
• The Vilcek gym may be small, but it’s close by and ALWAYS open
  • Keep an eye out for the next order of Vilcek Gym Social Club tank tops- you don’t want to be left
    out!
• Student Council is here to listen to you! Be sure to voice your concerns to your representatives or at meet-
  ings, because it is very easy to effect change at NYU
• The Vilcek lounge is a great place to gather before social events or to watch major televised events
• Need a caffeine fix before class, Argo Tea right in the medical center is a favorite of students. There’s also a
  small to-go place that has food and coffee in the lobby of Tisch. Or, if you like coffee in the comfort of your
  own apartment, a Keurig is a great investment
• If you live in Greenberg, you can, in fact, leave at 8:54AM and be on time for 9AM lecture. This was learned
  by many through large amounts of trial and error. Sorry, Vilcekers. You’re gonna need to leave 5 or 10 min-
  utes earlier.
• Getting involved in club or student council-sponsored events is a great way to have fun and get to know your
  classmates better
  • Keep an eye out for events such as the ski trip, camping, and whitewater rafting
• One of the most convenient and well-stocked grocery stores is Fairway Market, but it’s certainly not the
  cheapest
  • Trader Joe’s and the local produce stands have great deals on your consumable needs
  • If you’re on a budget, there are a myriad of events that clubs will put on with dinner included
• Amazon Prime and Google Shopping Express both offer 6 months of free shipping and they are a great way
  to outfit your apartment
  • With NYU, you have a couple email addresses you can use to keep Amazon prime going: kerbero-
    slID@nyu.edu, first.last@med.nyu.edu, etc.
  • Bed, Bath, & Beyond offers a flat-rate delivery fee, so team up with your roommates and friends
    if you’re looking for some new apartment goods
• Get the Venmo app for those times when you owe a friend money and don’t have exact change
• If you travel out of town often, keep a close eye on the ALEX calendar; events sometimes change without an-
  nouncement!
• Be sure to read all emails carefully; they may contain important information ranging from a change in class
  schedule to updates on which study spaces are open
• Don’t get too bogged down with getting top grades; after all, it is a pass/fail curriculum and you’re in NEW
  YORK CITY!
GETTING AROUND NYC:

One of the amazing things about going to NYU is being in NYC, and though in Medical school you will be busy, you will definitely have more than enough time to explore all of the amazing things right at your finger tips. In these few little sections I hope to guide you through the myriad of options for getting around, from a native New Yorker.

**Tips and Tricks**

- When it’s during the day and you need to go crosstown, don’t take a cab, take a bike or walk, the traffic will take you forever

- Use Google maps to plot your routes. It can give you routes for walking, biking, mass transit, or by car. It’s one of the most useful things in NYC

- Another alternative is Hopstop

- NYU is right on the water and there are ferries that leave right around the corner going to Williamsburg, Long Island City and, perhaps the best kept secret, Governor’s Island

- Take the E Shuttle to Trader Joes

- For the SBS buses you need to pay first and get a receipt. DON’T FORGET THIS!

- Every Bus line now has Bus Time allowing you to track where your bus is

- Many Trains now have Train Time. Though not as pervasive or accurate, it is still great to use
GETTING AROUND NYC:

By Foot:
This is by far the most convenient way to get around. In NYC it is a totally reasonable mode of transportation for most people going <2 miles, so just under a 40 minute walk. It works out to being about 20 blocks to a mile, and you cover a block in about a minute, best way to make sure you arrive on time.

By Bicycle:
New York City is one of the best biking cities in the country and it gets better every year! This is a great way to get around and to see the city. NYU SoM has its very own bicycle share system that you can access with a very simple information session. Also as an NYU student you can join the NYU credit union and get a discount on an annual membership to Citi Bike, NYC's hugely popular bicycle share system, with many stations located right around the medical center. If you have your own bicycle even better, you can go anywhere in the city and most of your journey will be in a bike lane, of which NYC has hundreds of miles. NYULMC is located right on the amazing 1st Ave protected bike lane to bring you up town, perfect for a trip to the MOMA or downtown on the protected 2nd Ave bike lane to Chinatown.

By Train and Bus:
The NYC subway system has the most miles of tracks out of any subway system in the world. You can go just about anywhere, all for $2.50 one-way, and where the subway doesn't go the bus does. First Ave and Second Ave have the M15 SBS, NYC's implementation of Bus Rapid Transit, inspired by the amazing bus system of Curitiba, Brazil. These types of buses are expanding throughout the city. Now there is even one running crosstown on 34th Street. Don't forget to get a MetroCard when you're here!

- Nearest Subway Stops: 33rd and Park, 28th and Park (6 train)
- Nearest Bus Stops: 33rd and 1st/2nd (uptown) or 28th and 1st/2nd (downtown) or 34th and 1st (crosstown)

The Shuttles:
NYU is a large urban university, and its campus is spread out throughout the city (Bronx Community College and Hofstra University used to be parts of NYU). To accommodate students living all around, or just taking classes at one of its satellite sites, NYU runs a huge shuttle bus system, probably more extensive than many small cities. From the medical center you can take a free shuttle to just about any of the other campus locations, most importantly Bobst Library, Coles Gym, and Palladium Gym. All you need to show is your ID. And no, you can’t take a shuttle to NYU Abu Dhabi.

Car:
You probably won't own your own. It is a crazy city when it comes to parking and traffic, but you just might take a taxi or use a Zipcar to get around. Taxis are a great thing, but they can be expensive. Their use is almost entirely relegated to sharing with others, or for that date night when you want to impress. In NYC you will see three types of cabs, Black/Livery, Yellow, and the newest, Green. The black cabs are not legally allowed to pick up passengers off the street, rather they are supposed to be called whether by a phone call to a car service or by using Uber. Yellow cabs are your bread and butter in the city, but remember to turn off the annoying video that turns on when you get in. The green cabs are brand new. I actually haven't ridden in one yet, but they are meant to only operate in the “outer boroughs” (i.e. not Manhattan), but you will see them around the medical center all the time dropping patients off.

By Bicycle:
New York City is one of the best biking cities in the country and it gets better every year! This is a great way to get around and to see the city. NYU SoM has its very own bicycle share system that you can access with a very simple information session. THINGS TO SEE AND DO IN NYC:

**Chinatown**
Try taking the train to Canal Street (multiple lines, including the 6 train), which drops off around Canal and Lafayette, and walk east (towards Center St).

Stop off at: New Kam Man supermarket on the south side of Canal (http://www.newkamman.com/) and explore all three levels.

Turn right on Mott street and just south of Canal there’s is a chopstick boutique (http://yunhongchopsticks.com/) which is kind of random and cool.

If you continue south on Mott St you’ll come upon a candy shop on the west side of the street, which will be appealing exotic to some students and a reminder of home for others: http://sweets.seriouseats.com/2014/02/a-tour-of-aji-ichiban-the-asian-candy-havens-outpost-in-nyc.html

Walk around on Bayard, Kenmare, Elizabeth, and Mulberry streets—there’s plenty to explore. Look for people doing Tai Chi or playing music in Confucius Square. Taste Manhattan’s best cha sui bao (roast pork buns) from Mei Li Wah, on Bayard St, the David Chang-approved ginger scallion noodles from Great New York Noodletown (Bowery and Bayard—this place is open until 4am, great for late night munchies), and the pork soup dumplings at Shanghai Asian Cuisine next to the passageway on Elizabeth St and there’s a Xi’an outpost on Bayard as well. Fruit stalls on Mullbery, and numerous markets tuck away on side streets north of Canal too. Try the little Hong Kong cakes you can buy 15/$1 from street carts. This is obviously a great area for food. But also fun to explore—lots of nooks and crannies.

If you get tired of Chinatown and want to keep walking, head up into Soho on Broadway (check out Pearl River Mart—overpriced but fun to explore) or West Broadway (lots of trendy shopping), or walk north on Bowery where there are many stores that sell lighting and kitchen appliances.

**Upper West Side**
The Museum of Natural History is worthy of a day all on its own, but if the weather is nice take a chance to walk around the neighborhood as well. Wander into Central Park, where there is a beautiful lake, and walk south to Strawberry fields. Or walk west to Columbus Ave or Amsterdam Ave, and south towards Lincoln center for a taste of how (affluent) local New Yorkers live. You’ll find Zabar’s on Bway and 80th St, and the original Fairway location just a few blocks farther south. All the way on the very western edge of Manhattan, starting at 72nd street continuing north, is Riverside park—featuring views of the Hudson River, gardens, playgrounds, ball fields, and a marina (around 79th street). Given all the great casual dining and markets selling prepared foods, the UWS is the perfect neighborhood for taking your food to go and having a picnic in Central Park or Riverside Park (when the weather permits).

**Highline & Chelsea Market (& Eataly)**
Suggested route from NYU SoM: walk down to 26th and Madison to Madison Square Park. Exit at the southwest corner of the park and explore Eataly before continuing west to pick up the High Line at 23rd and 10th. Walk south on the Highline and then drop back down to the street at 16th and drool your way through Chelsea Market. From there you can walk east to Union Square (find the Greenmarket at the north end of the square on Mondays, Wednesdays, Fridays, and Saturdays, and the holiday gift fair at the south end during November and December). You can catch a 6 train to get back to campus, or walk east on 14th street to pick up the NYU shuttle from in front Palladium (near Trader Joes).
THINGS TO SEE AND DO IN NYC:

Central Park South & 5th Ave
The Plaza (especially the food court—which is new and expensive and touristy but also satisfyingly opulent), FAO Schwartz, Apple Store, Tiffany & Co, Bergdorfs, lots of other high-end window shopping, especially enjoyable during the holiday season when snowflake decorations are hung across 5th ave and there are vendors selling roasted chestnuts at every other corner.

East River Ferry
On hot and sunny summer weekends the best way to see the city may be from the water: for $6 you can catch a ferry from 34th street (cross over the FDR to the ferry terminal) that makes stops in Long Island City (Queens), south along the Brooklyn waterfront, down to South Street Seaport, and finally to Governor’s Island. My favorite way to play it: catch a late morning ferry and get off at north Williamsburg. Smorgasburg opens at 11am on Saturdays and Sundays, and provides an opportunity to feast on local artisanal takes on a whole host of international delicacies. Once you’re full you can either walk east to Bedford avenue and explore the hipster heaven that is gentrified Williamsburg, go on a tour of the Brooklyn Brewery (you can take the L train back to Manhattan), or hop back on the ferry and take it to the last stop: Governor’s Island (there is so much to do: www.govisland.com). When you’ve exhausted yourself on Governor’s Island, you take the ferry all the way back to 34th Street (an hour-long ride) or just one stop to South Street Seaport, NYC’s most touristy locale. Locals rarely visit South Street Seaport, and the neighborhood is still recovering from damage wrought by hurricane Sandy, but if you can look beyond all the tourist trappings it’s a worthwhile experience to appreciate the preserved architecture and imagine the city as it once was.

Midtown East
Take the 6 train to 59th Street and Lexington Ave

Bloomingdales may be pricey for most medical students, but it’s a classic New York City department store that anchors the local neighborhood—and if you are shopping for something special the staff there are always obliging. If you can’t stand to look without buying, there’s also an H&M across the street, and numerous other popular shops lined up along Lexington Ave (Banana Republic, the Gap, Victoria’s Secret, The Container Store).

While those are the neighborhood’s obvious destinations, there are some hidden gems as well: on 62nd Street look for the tiny townhouse that is home to Tender Buttons, where you can find buttons to match any garment or browse the class cases that display unique and valuable antique buttons from around the world. Dylan’s Candy Bar, on 60th and 3rd, is much easier to spot; this was the original location it’s now the flagship store. If you’ve ever dreamed of finding a golden ticket and getting into Wonka’s factory, this is your chance.

If Dylan’s only whets your appetite for childhood wonderment then you should follow up with a stroll to Serendipity, on 60th between 3rd and 2nd. The whimsical dessert spot (well, mostly dessert) has been a draw for celebrities, locals, and tourists for decades.

Continue walking east and you can pick up the Tram to Roosevelt Island. The island is mostly residential buildings and businesses that serve the needs of the residents, so there isn’t much to see on Roosevelt Island itself, but it’s novel to take the tram (for the cost a metro card swipe) and you can walk the length of the island to visit two old lighthouses, found on the north and south tips of the island.
THINGS TO SEE AND DO IN NYC:

Other attractions

9/11 Memorial and Museum—recently opened, a sad piece of American history that everyone should visit at least once while in NYC.

Central Park—SummerStage, the Sailboat Pond, Wolman Rink, the Carousel, Sheepmeadow

Staten Island Ferry—FREE and a great way to see the Statue of Liberty, Ellis Island, and amazing views of Lower Manhattan

The Cloisters—also not just for Christians. The exhibits are worthwhile, but the best part about a trip to the cloisters is the chance to enjoy a sense of peace and quiet and tranquility that can be hard to find in NYC. http://www.metmuseum.org/visit/visit-the-cloisters

The Frick Collection—FREE FOR NYU SoM STUDENTS, a favorite of art lovers, smaller museum and easier to manage in a day

The Metropolitan Museum of Art—pick a wing and spend a few hours exploring. A particular favorite is the Egyptian art area with an entire temple transported from Egypt.

The Museum of Modern Art (MoMA)—FREE FOR NYU SoM STUDENTS, amazing works of art from the impressionists onward.

The Museum of Television and Radio—you can watch (or listen to) pretty much every program ever broadcast. http://www.paleycenter.org/

The Whitney Museum of American Art—FREE FOR NYU SoM STUDENTS plus one guest, the highlights of American art in NYC

# Off Campus Study Spots

Sometimes it’s nice to study outside of your room or school – here are some hidden gems we’ve found.

<table>
<thead>
<tr>
<th>Free Wifi</th>
<th>Power Outlets</th>

<th>Tables for Studying</th>
</tr>
</thead>
</table>

## Birch Coffee

5 East 27th St
- One of my favorite spots; grab some coffee and go upstairs to their cozy library. Their food is pretty clutch too.
- Since we spend a significant amount of time studying, and drinking coffee, grab their rewards card.

## Gregory’s Coffee

327 Park Ave
- More seating than birch and has tasty coffee to match.

## myWaycup Coffee

102 E 23rd St
- Go get some coffee and study in Madison Square Park (Birch or Gregory’s are worthy alternatives)
- Fun fact: they’re kosher.

## Madison Square Park

23 Madison Ave
- Closest park we have to us, and when it's nice out it's one of the best ways to study outside.
- Tables can be tough to find (especially by Shake Shack); it's rare that I can't find an empty table by the lagoon and if you're still out of luck, the triangle-intersection of 5th Ave and Broadway usually has plenty (with a nice view of the Flatiron building) – this is where the free internet is.
- FYI this is home to the bbq block party that occurs late spring and the Madison Square Eats (early april)

## The New York City Public Library

467 42nd St
- Don't be intimidated by the walk (it's the same distance as Bobst). Go to the top floor and enjoy the great room with massively tall ceilings and windows for natural light.

## Bryant Park

41 W 40th st
- Beautiful day outside? Perch yourself outside on one of their tables. Unlike Madison Square park, which can sometimes be difficult to find a table, there is never a shortage of tables, chairs, or grass space here.

## Bobst Library

70 Washington Square S
- Where you can go when you need to get stuff done. Really nice great rooms on the even floors. Be warned, it can be busy with undergrads on the weekends.

## Think Coffee

248 Mercer St
- A couple blocks away from Bobst. Can get crowded but usually not a problem.
- Try the Spanish latte.
- While Think Coffee is a chain, this is the only location that has free wifi

## Starbucks

393 3rd Ave
- You know what you’re getting here. Can be crowded in the latter hours, to which I suggest you try walking 2 blocks in any direction.

## Pushcart Coffee

362 2nd Ave
- Great coffee and pastries, free WiFi, and they let you stay as long as you want.
