ANNOUNCEMENTS

Deadline Extended! Request for Applications: NYU-HHC CTSI TREC Degree and Certificate Program Offerings

- The application deadline for several CTSI-TREC programs has just been extended to June 9, at 5:00 PM. These include both tracks in the Master's programs, the MD/MSCI program, the certificate in Clinical and Translational Investigation and the Summer Intensive Program (INTREPID). To apply or learn more about these programs, please click on the following link [TREC](#)

The 18th Annual Nursing Research Conference: June 2, 2014

- We are proud to announce that two of our CTSI nurses, Rosario Medina and Halia Melnyk, will be presenting at the NYU Langone Medical Center's 18th Annual Nursing Research Conference. The title of Rosario's talk is, *Understanding the Role of the CTSI Clinical Research Nurse at an Academic Medical Center*. Rosario will attempt to delineate the various nursing roles in clinical research and demystify the concept of clinical research in providing patient care. Rosario hopes that nurses at the medical center, nurses from the College of Nursing and other nurses visiting our center can gain information about the importance of clinical research and how any patient in the hospital can be a potential research subject. Her aim is to provide the tools necessary for the bedside nurse as to what they can expect, how to answer questions about the research, and to encourage working together to ensure positive outcomes for the subject. The title of Halia Melnyk's talk is, *One Size Does Not Fit All: Recruiting Frontline Nurses in a National Multi-site Study*. The presentation will describe the Small Troubles Adaptive Responses (STAR2) study and the recruitment challenges encountered by the research team. The study is led Dr. Peri Rosenfeld, Director of Outcomes Research and Program Evaluation and the goal is to leverage nurses' experience and knowledge of small problems encountered in their daily shifts and to incorporate this into organizational quality improvement activities. CEPHR Spring Seminar with Dr. Marthe Gold, MD, MPH: June 3, 2014

- Please join us on June 3, at 4 PM for a seminar with Dr. Marthe Gold, MD, MPH, titled *The Dollars and Sense of a Population Health Approach*. Dr. Gold chaired the Institute of Medicine Committee on Public Health Strategies to Improve Health. She will discuss aspects of the evidence base that influenced the Committee's recommendations on investments in population health, and describe potential strategies for allocating health resources more efficiently. Dr. Gold is Logan Professor with the Department of Community Health and Social Medicine at Sophie Davis School of Biomedical Education. The Seminar will be held in the First Floor Seminar Room of the Translational Research Building at 227 East 30th Street. To RSVP or for more information contact [Catlin Rideout](#)

Upcoming BMI Faculty Seminar: June 4, 2014

- The next Biomedical Informatics Faculty Seminar is scheduled for Wednesday, June 4, at 11.30am in the Skirball 4th Floor Seminar Room. Speaker David Fenyo will be presenting on *Elucidating the Interactome*. To learn more about this event, please click on the following link: [BMI Seminar](#)

NYU Ion Channels and Transporters Science Interest Group: June 11, 2014

- The June seminar of the Ion Channels & Transporters Science Interest Group will take place on June 11,

2014 at 3:30 pm in the Skirball 3rd Floor Seminar Room. Light snacks will be provided. To learn more about this interest group, please click on the following link: [ICT Interest Group](#)

RECENT CTSI NEWS & HIGHLIGHTS

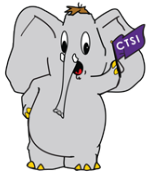

Congratulations to Dr. Peri Rosenfeld and his team on receiving the Research Excellence Award

- Dr. Peri Rosenfeld's Small Troubles Adaptive Responses (STAR2) study which is being presented at the 18th Annual Research Nursing Conference mentioned earlier was also invited to participate in the recent Magnet site visit with the Nursing Research Council where her team was presented with the Research Excellence Award in May's Nurse Recognition Awards Ceremony.

FEATURED RESOURCE OF THE MONTH

CTSI Services

- The CTSI offers a range of services, which include, but are not limited to Research Studios, Consultations in Biostatistics and Study Design, Biomedical/Clinical Research Informatics, Clinical Research Resources, Research Subject Safety Consultation and more. To learn about the services, please visit the [CTSI Website](#). If you are interested in applying for any of our services please complete the [Service Request Form](#).
